Cycle Shelters

Park-Street Furnishing Cycle Shelter options are designed to be stylish and durable without compromise to style. In today's environment cycling to the workplace or school is a healthier way of travelling. The added benefit of providing a cycle shelter facility in a commercial or Educational establishment not only assists with healthy living but also gives the added benefit of helping the environment.

Each cycle shelter design featured, will offer a taste of what can be achieved when you deal direct with a manufacturer who is able to provide the most modern Precision engineering facilities including CAD design, laser cutting, powder coated and wet paint coating facilities. Our Cycle Shelter range can be wall fixed, freestanding or bolted to a suitable ground surface or root fixed into the ground with concrete to ensure secure fixing. Our range of modern cycle shelters include the Tornado, Wellington, Lancaster, Riverswood, Merlin and Kestrel.

Cycle Compounds

Our secure cycle shelter & compound range is very versatile and are offered as a standard or bespoke style as we can design and manufacture any cycle compound that you require to any size, shape, style and capacity. Our in house design team will work with you to provide the solution that you want.

Cycle shelters & compounds can be made to provide added protection and include gates or designed as a compound and include security gates and walkway roof to give maximum security and weather cover. Extras can be added such as helmet lockers, cycle racks, toast racks cycle racks all options of different locking systems to keep the shelter secure.

We also offer a range of different styles of cycle racks and cycle stands to fit inside our cycle shelters. Our technical sales consultants can provide practical advice and ideas to help you decide on the best option for your cycle shelter needs.

Canopies & Outdoor Shelters

Park Street Furnishing are experts in designing and providing our customers with the right type of canopy to meet their needs. Our range of canopies are very versatile and can be used for a variety of different uses. Our canopy range is very popular within the commercial and education sectors to use for different purposes such as a children's covered play area, parent waiting shelters, outdoor classrooms, walkways between buildings. They can be used all year round regardless of weather conditions to help protect from the elements and also protect from harmful sun rays as the PET cladding we use has UV protection. Canopies can really transform the appearance of a building and can be designed and built to your own unique preference. We take great care in ensuring that we design the right type of canopy for your needs and will work with you on your project to get every element of it perfectly right for your needs. Our in house design team will provide you with drawings for you to approve prior to any work commencing on your project.

Covered Walkways

Covered walkways cater for a variety of uses. These are very functional structures and can easily link buildings together and enable people to walk freely and safely with comfort and protection from adverse weather conditions and still provide a high level of outdoor visibility. They can be built as freestanding or lean to and can attach to any building. Additional items such as side cladding, guttering, handrails and lighting can also be included. We take great care in ensuring that we design the right type of walkway for your needs and will work with you on your project to get every element perfectly right for you. Cladding with PET which provides UV protection from harmful rays of the sun, safer for children playing outside in summer months. Installation service available from our fully skilled and experienced teams who can undertake any project of any size no matter how big or small.
