

Ascot Barrel Polycarbonate Clad

The Ascot design uses a single rolled tubular box section for the roof arches giving a clean line to the roof. The barrel format brings the eaves down on either side creating greater protection in open areas. The roof of the canopies can either be clad with flame retardant waterproof fabric or polycarbonate.

Warranties

Framework - 25 years
Polycarbonate Cladding - 10 years against discolouration through sunlight

Sizes

The maximum width for the Ascot is around 6m but each canopy as fabricated to suit the clients requirements.
