**Leading German Heating Equipment Manufacturer, MHG, Increases its UK Presence**

MHG Heiztechnik GmbH, which has been a leading European premium heating equipment manufacturer for over 80 years, has now recruited experienced regional and area sales managers and established a UK-wide network of trained technicians for MHG Heating Limited, its UK subsidiary.

MHG's boilers have been marketed in the UK as the Strata Streamline wall hung and Strata Streamline FS ranges. MHG can now supply and support UK customers directly.

This means that existing Strata and Streamline owners now have the option to use MHG's service engineers and new clients have the option to deal directly with one of Europe's leading premium heating equipment manufacturers.

The benefits for MHG's UK clients will include the ability to have direct prices on MHG's full range of quality products including the well-known gas condensing range, award winning Blue Flame Oil Rocket Burner©, heat pumps, thermal solar systems, oil condensing boilers and innovative ThermiPro Hybrid Heat Stations.

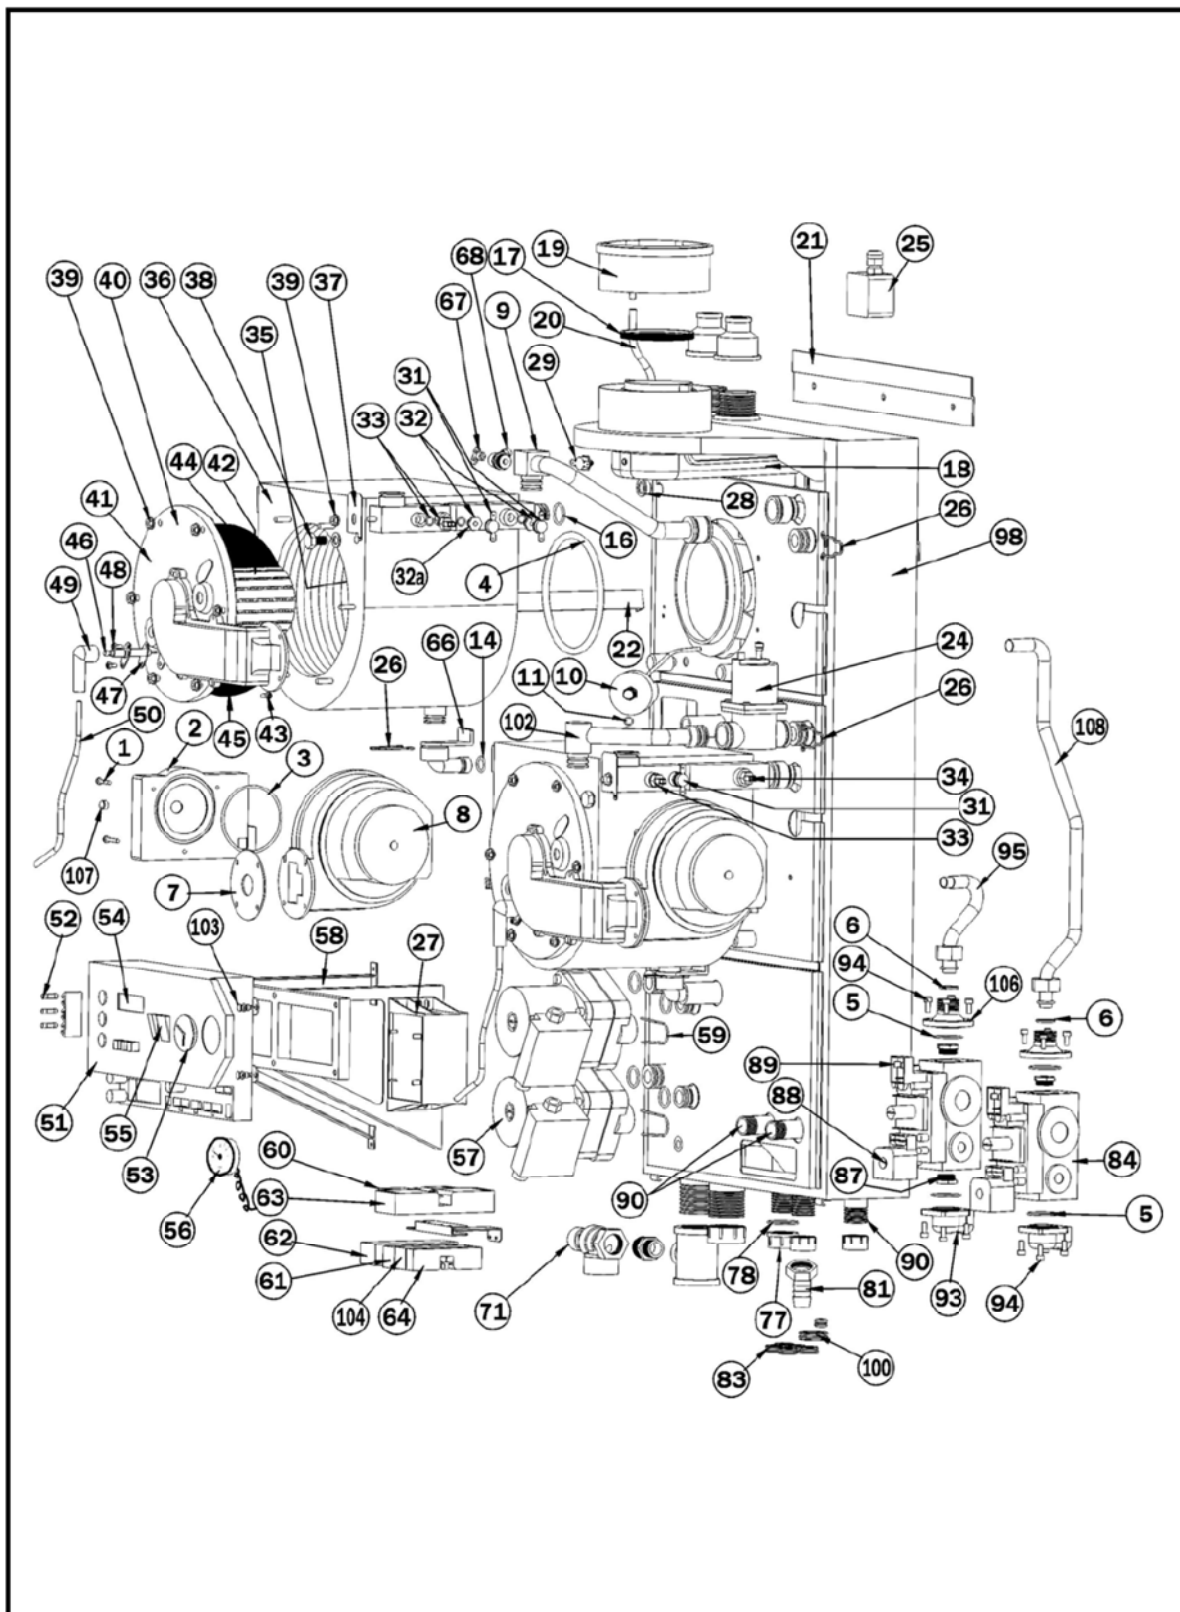

As you would expect from a German group of companies, MHG is committed to providing quality products and the highest level of customer support, encompassing selection, application, commissioning and annual servicing at competitive prices.

Technical support is available 7 days a week and all products are supplied with a 24 month warranty

Please feel free to make your support requests directly with the head office via the contact details shown below.
