SWR

About SWR

SWR began trading in 1989 and specialise in supplying high quality products that surpass our customers' expectations.

We are deeply passionate about installing creative and innovative products that enhance customer living.

Whether you desire the latest design, additional security or the most modern technical features, we will provide the perfect solution.

SWR's Awnings, Glass Houses and Winter Gardens enable you to use your garden either side of the "summer months" whilst aesthetically improving the look of your property.

Our Garage Doors, Entrance Doors and Bi-Fold Doors are predominantly manufactured in Germany to the highest quality standards and provide the very best in security and thermal insulation properties.

Finally, our Stainless Steel and Glass Balustrade Systems meet critical load requirements whilst offering sleek and contemporary solutions to stair, landing and decking areas to keep your family safe as well as looking superb.

We offer the very best in home installation products, professionally fitted to turn your dreams into a reality.

Secured by Design

Official Police Security Initiative

Your home will look great and be more secure with a Hörmann Entrance Door

Quality Garage Doors with a style to suit every home

Up & Over Garage Doors

SWR's range of Up & Over Garage Doors is the most extensive in the UK. We are close partners with all of Europe's leading manufacturers and proudly focus on supplying the perfect Garage Door solution every time, whatever our customers' needs.

Our Up & Over range includes:

- Steel, Timber, Fibreglass & uPVC
- Insulated one-piece doors with the lowest available U-values in the UK
- Almost any RAL colour and a full range of woodgrain options
- Various timber options - Cedar, Hemlock, Oak, Pine & Idigbo
- Customised doors to your uniquely specified design and material
- Integrated Entrance Doors
- Additional security options
- Automation with accessories such as high security Finger Scanners and LED Light Strips

Sectional Garage Doors

SWR's Sectional Garage Doors offer additional security and insulation benefits whilst often providing a more contemporary appearance for your home.

Our Sectional Garage Doors are predominantly manufactured in Germany to the highest quality standards. All have fantastically smooth operation as standard with a large range of insulation options, colours and designs. We will help you find what you are looking for.

Our Sectional Garage Door range includes:

- Steel panels from single skin to 42mm insulation
- Any RAL colour and a full range of woodgrain options
- Superb U-values
- Timber options (Hemlock, Pine, Oak & Cedar)
- Integrated Entrance Doors
- 10 year warranties
- Automation with many unique accessories such as high security Finger Scanners and Light Strips

SWR

L-ribbed sectional door coloured to match the surroundings

Roller Shutter Garage Doors

Roller Shutters offer great insulation and security benefits whilst providing maximum passage widths, keeping your Garage ceiling space free for alternative use.

Manufactured in Europe, SWR's range of Roller Shutters includes:

- A great variety of RAL colours and a full range of woodgrain options
- Extensive range of aluminium insulated and non-insulated slats
- Superb U-values
- Excellent security
- Home automation compatibility

Side Sliding Sectional Garage Doors

New to SWR's growing range of products, our Side Sliding Sectional Garage Doors are produced in Germany with the same highly insulated panels used on our Sectional Garage Doors.

Our Side Sliding Garage Door range includes:

- 42mm insulated panels
- Almost any RAL colour and a full range of woodgrain options
- Superb U-values
- Excellent warranties
- Automation with unique accessories such as high security Finger Scanners and Light Strips

A Bespoke Garage Door, tailored to your needs - SWR will provide the perfect solution

Bespoke Garage Doors

SWR feel passionate about supplying creative and innovative products and have great experience in providing solutions for bespoke requirements.

We supply and install customised Up & Over and Sectional Garage Doors to your specific taste and style. You provide your design specifications and let our Technical Service Department do the rest.

Previous installations have included doors that blend perfectly into the surrounding construction of the building as well as uniquely created door styles.

If you can "think it," we can "make it."

ballan[®]

SWR offer the full range of Ballan Garage Doors throughout the UK. Since 1970, Ballan have provided innovative products with unique design features.

Every choice of Ballan automated Up & Over Garage Doors is available with optional 25mm weather sealed side gaps to guarantee maximum safety during automation.

A variety of insulated panels offer superb thermal insulation properties and if you would like an Integrated Entrance Door, no problem - it's a standard option throughout!

A combination of Italian style, European safety and the hand crafted touch that is difficult to surpass.

Ballan Doors - Italian Style, European Safety

Ballan Garage Doors

Ballan's range has a unique variety of styles and materials. We can also produce these high quality doors to your bespoke designs. The full range is available with trackless counter-balanced door gear and with automation units fitted to the back of the door, maximising the internal space of your Garage.

Standard options include:

- Steel, timber and insulated panels
- Excellent thermal insulation properties
- Any RAL colour and a full range of woodgrain options
- Integrated Entrance Door options throughout the range
- Trackless one-piece doors

Beautifully designed doors, manufactured in Italy

DOMINA

THE TRACKLESS SECTIONAL DOOR

How The Overlap Works:

The leaf raises, folds in half, turns to the ceiling and then splits into two parts with the lower section running under the upper section.

Introducing Domina

The world's first Trackless Sectional Garage Door. Designed and manufactured to the highest specification in Italy, Domina has a unique patented trackless opening system. This means no unsightly ceiling tracks are required, allowing you to make the most of your space.

The exterior of the Garage Door sits flush to the frame, allowing for seamless integration with the façade of your property. However, the interior is where the real innovation of Domina lies - Designed to be space saving and easy to operate, with automated opening as standard, the Domina door is the perfect solution for Garages that are not very deep or close to the street.

Complete with outstanding thermal insulation and an incredible 10 year warranty, Domina is as reliable as it is innovative. This beautifully engineered door has to be seen in our Showroom to be fully appreciated.

Modern and practical - designed for living

Solarlux Glass Houses

Experience for yourself the elegance of Solarlux's Glass Houses. It's not just the design that is impressive, but also the maximum transparency.

- High transparency due to slim section faces
- Shading available for indoors and outdoors
- High level of prefabrication with fast assembly times

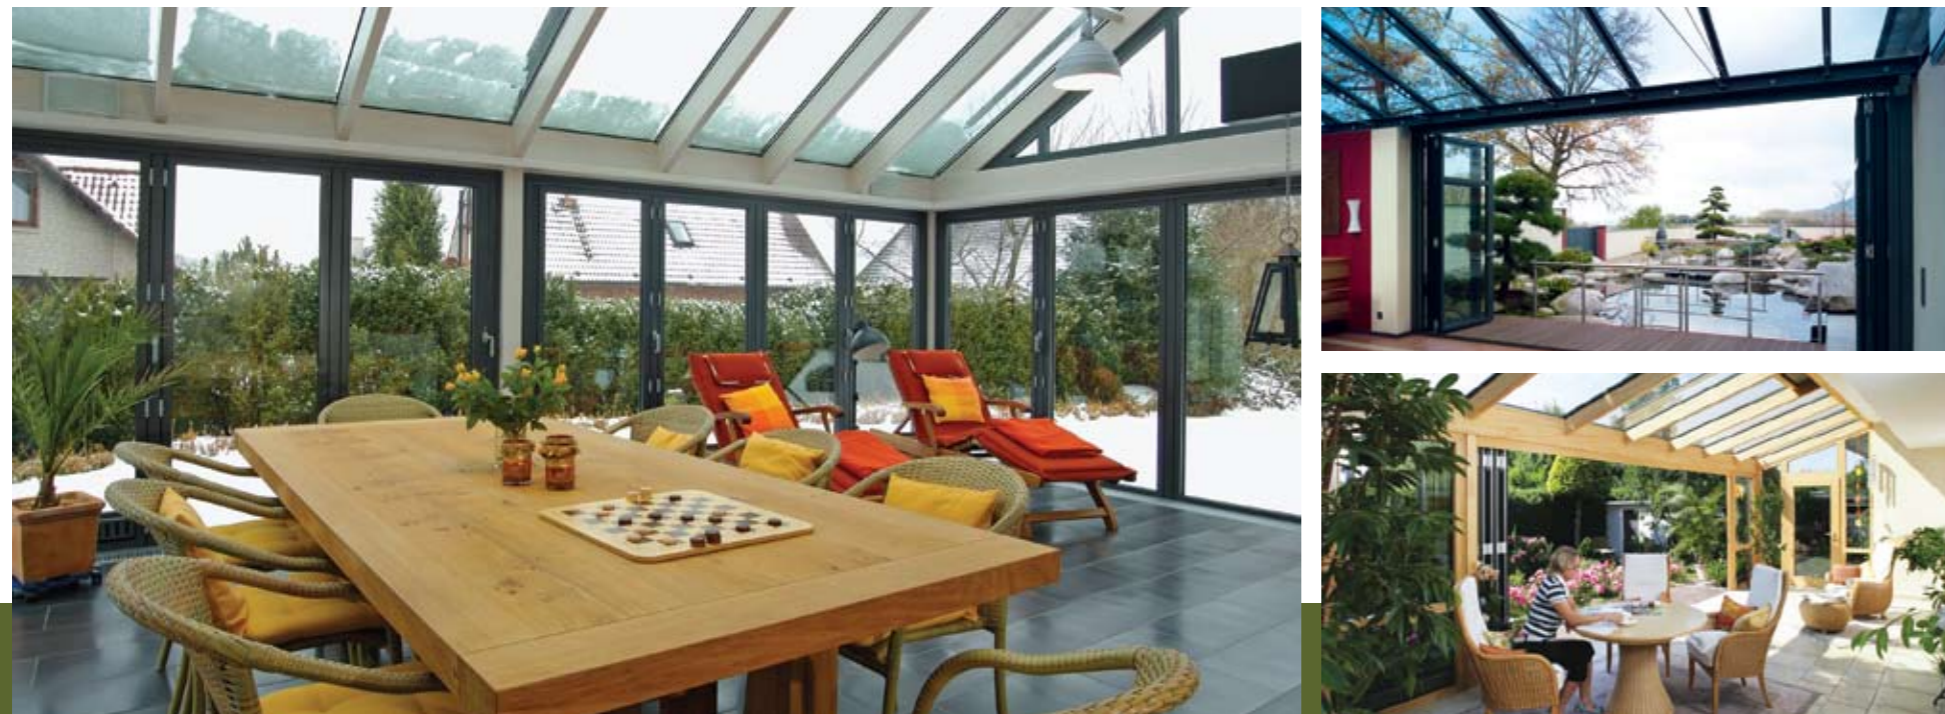

Solarlux Winter Gardens

When building your Winter Garden, you can also choose from a variety of roof designs. We can customise your Winter Garden to meet your individual requirements.

The Winter Garden's roofing system delivers daylight-flooded elegance with optimum thermal insulation.

Optional extras such as sun shade, ventilation and automated controls ensure an ideal environment.

There is also a wide range of frame colours for you to choose from to complement the design of your home.

Space for experiencing all the seasons
