## Woodcraft Flooring

We at Woodcraft Flooring believe in supplying the very best wood flooring to designers and specifiers for commercial, retail and residential properties. As a company we are committed to personally selecting the very best wood & products to provide for our customers at affordable prices, and fully dedicated to providing our customers with the opportunity to buy in confidence.

We are unique: our dedication, expertise, quality of products and services are second to none.

Wood is a living product, with its variations of colour, texture, and design you could be faced with tough decisions on choosing which wood floor is best suitable for you. That's why here at Woodcraft Flooring you will find that helping you make these difficult decisions is of great importance to us, whether by a visit to our showroom or a detailed consultation at your premises, you will receive practical and straightforward advice on all issues.

We manufacture all our wood flooring to the specifications of the customer. Our hand custom finished wood flooring is of the highest quality suitable for residential, commercial and retail properties.

We are so confident in our products that all our European Oak flooring comes with a 25 year guarantee, a 5 year guarantee on installation. All our engineered wood flooring is compatible with under floor heating.

## *Steps we take before fitting your wood*

A detailed site visit will be conducted in situ where the following inspections will be undertaken

- Moisture and damp readings
- Inspections of sub floor
- Samples will be made available for the client in situ

Upon completion of the inspection a detailed report will be given to the client explaining any necessary steps that may be taken prior to installing the wood floor

**AFTER**

## *What our customers have to say*

The range of products available at Woodcraft Flooring is extensive, the service and quality they provide is exceptional. In addition, we have been pleasantly surprised at their competitive pricing structure. As a development company building at the top end of the residential market, our clients have high expectations and Woodcraft Flooring appreciate the importance of quality, cost and the need for flexibility. At short notice, Mr Murcel and his team move quickly to meet the requirements necessary. We would not hesitate to use Woodcraft Flooring in the future and strongly recommend them to others.

The quality of the materials used was first class and we cannot find fault with the fitting. The floor was laid with great attention to detail and the difficult areas were finished very neatly. Woodcraft Flooring took time to listen to our requirements and kept to the agreed time schedule and were efficient and pleasant to work with

May we take this opportunity to say what a pleasure it has been to deal with Mursel and the team. We are really delighted with the floors and it has been such a relief to have the expertise, commitment and flexibility that has been required on this project. With kind regards and huge thanks to Mursel and his team. They have all been fantastic.
