Cycle Shelters

item: 161217

Our range of cycle shelters are available for all budgets

Cycle racks are available in two sizes and can be provided for root, base-plate or rack fixing.

Composition and manufacture:

The units are constructed from heavy-duty RHS and are glazed with 5mm-thick, UV-resistant PETG.

Semi Vertical Multi Bike Rack available for any number of cycles

Storage for a number of cycles maximising usage of available space. Bikes can be stored either horizontally or semi vertically with both front and rear wheel located in a custom designed tapered steel trough to BS1716/51. 50% of storage space is available for cycles with extra wide tyres. Suitable for all types of cycle, from racing to mountain bikes. All steel-work is fully hot dipped galvanized to ISO1461. There is an option to have the rack polyester powder coated to BS6497 over the existing galvanized finish.

Vertical Wall Hanger

Ideal for bike storage in areas with restricted space. Cycles can be secured via a central anchor point along with both wheels if necessary. The hanger is powder coated in black and is supplied in three parts. Fixings are supplied as standard. High security tamper proof fixings are available as an optional extra. Available in one, two and three piece configurations.

2 Tier Cycle Racks

Space saving, superb usability and excellent value, The 2 Tier Rack is a very innovative and user friendly cycle parking system which allows the housing of twice as many bikes in the same area as a standard cycle rack.

There is a growing requirement for 2 tier parking systems especially in areas such as stations, shopping centres, schools, car parks and offices.

Sheffield Style Bike Stands

Very popular simple and effective design.
Stand allows cycle to be secured to frame with cyclists own lock.
Ideal for stations, schools, colleges, shops and also for sheds.
