Design that inspires the mind and transforms the space. The Chipman Collection is part of Terrace Life: lifestyle furniture for terraces, rooftop gardens and other private and protected spaces.

Designed by landscape architect Robert Chipman and inspired by the curves and hollows of the mountains he loves, the new collection features a table and chair of stunning sculptural form conceived for more intimate social settings. The lightweight cast-aluminum stacking chair is offered with or without arms; the 1145mm round table comes in dining and lounge heights; both are flawless in detail and finish.

Specification:

Table

Diameter: 1145mm

Two Heights available: 735mm, 380mm

Chair - With armrests

Depth: 560mm

Width: 610mm

Height: 840mm

Chair - No armrests

Depth: 560mm

Width: 510mm

Height: 840mm

Features:

- The product is lighter in scale than Landscape Forms current streetscape furniture
- The tables and chairs have cast aluminum bases attached to a cast aluminum support tube.
- The support tube is bolted to a cast aluminum frame supporting a steel sheet top.
- The table will feature a unique surface / embedded mount system
- Table and chairs are designed to be used in managed public spaces
- Dining table is available with or without umbrella hole.
- All metal is finished with Landscape Forms' proprietary Pangard II® polyester powdercoat, a hard yet flexible finish that resists rusting, chipping, peeling, and fading.
- Selection of standard colors, designer or custom colors; optional powdercoat colors available
- Design by Robert Chipman
