

# Camping Pods

Tanalised® E treated timbers

Interesting Facts:

- Arch customers North Yorkshire Timber secured a manufacturing and licensing agreement with Newfoundland Lodges, the creators of the innovative Pod.
- The decking and foundations of each Pod are manufactured from TANALISED E pressure treated timbers, ensuring a long-term protection against decay and insect attack, even in ground contact.
- The Camping Pods have surged in popularity even with the more traditional camper with sites all over the United Kingdom including Scotland and the Lake District.
