Description

The hexagonal flower box is made of boards of 6 x 12 cm and 4 x 12 cm alternately. These boards are kept together on the inside by means of metal corner profiles. The bottom is made up of a 10 mm thick recycled sheet, provided with drainage holes, and with additional support in the middle. The flower box can be optionally provided with three 4 cm thick and 12 cm high legs.

properties / material / look / maintenance

The boards are made of high quality recycled plastic, mass coloured : durable, weather-resistant, low maintenance, rotproof, recyclable. All metal fixing materials and parts are galvanised. The surface is knot free, evenly coloured and shows a faced, slightly shining structure.
