

Natural Selection

Landscape design aggregates
direct from the quarry

LONG RAKE SPAR CO LTD

Specialist Decorative Aggregates 2009

EST 1867

Experience the art of landscaping with the dramatic effect of stone... naturally.

With over 140 years experience in the decorative aggregate sector, Long Rake Spar has gained national status as the original manufacturer of Derbyshire Spar, and more recently as one of the UK's largest suppliers of hard landscaping products. Our products are sourced from both our own quarries, and other quarries throughout the British Isles, Europe and the Far East, enabling us to offer the most comprehensive range of decorative aggregates in the UK. This broad supply chain enables Long Rake to be at the forefront of new product development, and allows us to offer extremely competitive prices for the supply of established materials.

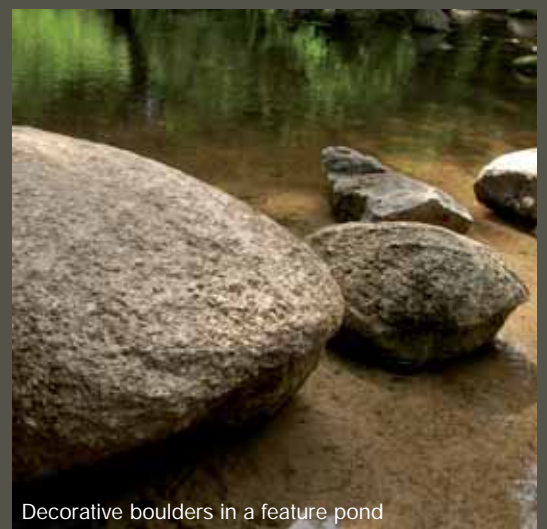

Our products are stocked by Builders Merchants and selective Garden Centres throughout the UK, and our comprehensive ranges are used for numerous applications including:

- Corporate & Domestic Landscaping Schemes
- Cast Stone & Specialist Concretes
- Terrazzo & Polymer Flooring & Stone Carpet Systems
- Decorative Wall Finishes & Roofing Aggregate
- Prestige Surfacing for Car Parks, Driveways & Footpaths
- Highway Demarcation and Anti-Skid products
- Specialist & Pre-cast Concrete
- Industrial Minerals & Filter Media

We also supply

- Rock Salt & Filled Sand Bags for Adverse Weather Conditions

Please note – Aggregates and rockery stone are natural products and variations in size and colour may occur due to geological and processing variables. Products may also appear darker in colour when wet.

Decorative boulders in a feature pond

ROCKERY STONE

Rockery stone provides a dramatic focal point to any hard landscaping scheme. Our rocks are supplied in standard size pieces starting at 250mm, packed at 70 pieces/crate, with the option of larger sized pieces, packed at either 60 or 40 pieces/crate, supplied to order.

FEATURE STONES AND MONOLITHS

Smooth, rounded, glacial boulders ranging from 300mm to 1.5m in diameter, add great impact to any hard landscaping project. These can be drilled for water features, or our Lumshill Sandstone can be engraved to your requirements.

A selection of Slate and Stone Monoliths, ranging from 2-6ft high, with the option of drilled units available for water features, provide a striking focal point to any corporate or domestic garden scheme.

LIMESTONE MONOLITH

SLATE

A re-cycled, bi-product of the roofing industry, this material is used extensively as a cost effective mulch, which alleviates water evaporation, whilst providing a pervious surface for plants and wildlife. The three colours are washed and supplied in 20mm and 40mm grades and are used extensively in hard landscaping projects. Slate is also tumbled to provide smooth, rounded Paddlestones in a 50-100mm size, and Pennystones in 20-40mm size.

GREEN SLATE :
20mm & 40mm

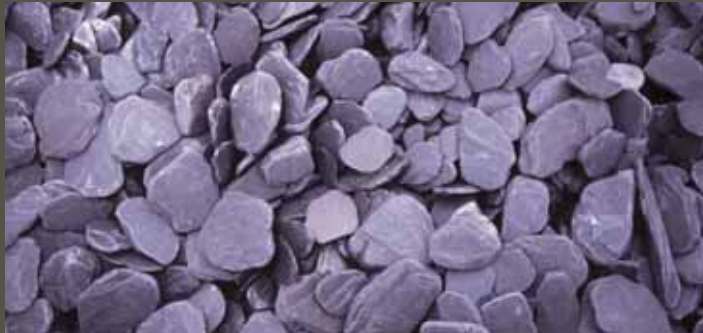

PLUM SLATE :
20mm & 40mm

BLUE SLATE :
20mm & 40mm

GREEN PADDLESTONES:
50 - 100mm

PLUM PADDLESTONES:
50 - 100mm

Slate provides a strong contrast for any planting scheme

PEBBLES

Naturally rounded and tumbled pebbles create an attractive feature in large water features, plant toppers, domestic and corporate gardens as well as interior design projects.

SCOTTISH PEBBLES :
20 - 30mm

TWEED PEBBLES :
20 - 40mm

OYSTER PEBBLES :
20 - 40mm

BLACK PEBBLES :
20 - 40mm

Gabian casing wall with mixed pebbles creating form and structure

WHITE PEBBLES :
10 - 20mm, 20 - 40mm

RAINBOW PEBBLES :
20 - 40mm

DOVE GREY PEBBLES
8 - 15mm

COBBLES

Naturally rounded and tumbled cobbles are sourced from raised beach or alluvial deposits and provide a smooth rounded surface. These highly decorative products are used extensively in landscaping, water features and domestic garden projects.

BLACK COBBLES :
40 - 90mm

SCOTTISH COBBLES :
40 - 90mm

COTSWOLD COBBLES :
40 - 90mm

TWEED COBBLES :
40 - 90mm

WHITE COBBLES :
40 - 80mm
80 - 120mm

SILVER GREY COBBLES :
40 - 90mm

GREEN COBBLES :
40 - 90mm

RASPBERRY COBBLES :
40 - 90mm

RAINBOW COBBLES :
40 - 90mm

DOVE GREY COBBLES :
40 - 90mm

Mixed cobbles and boulders enhancing an outdoor water feature

DECORATIVE GRAVEL AND CHIPPINGS

Gravels are gaining an increasing presence within environmentally sensitive areas, where there is a requirement to conserve water and apply a greener alternative to paving or hard surfaces. The natural qualities of these products create an effective permeable surface that reduces or eliminates water run-off enabling the water to percolate into the ground; whilst the gravel requires little or no maintenance.

FOOTPATH GRAVELS

These graded aggregates, provide a flat textured surface for regenerating footpaths, bridleways and access paths. They can also be used within recreational areas, parkland and new build projects where a durable, cost effective surface is required.

GOLDPATH

GOLDPATH®

A warm golden coloured product, which has natural self-binding properties, providing a flat compacted surface when rolled. Goldpath is a cost-effective, durable, textured surface, suitable for a wide spectrum of applications, from rural footpaths, parks and golf courses to lightly trafficked parking areas and large corporate landscaping schemes.

GREEN SLATE : PLUM SLATE

GRANITE

ECO-FRIENDLY SURFACES

These products can be used in more sympathetic environments, such as woodland paths, tracks, or areas of ecological importance, where inert materials are a pre-requisite. They will not affect the pH of the surrounding soils/habitats and provide an environmentally balanced alternative to the usual lime based products.

Re-generation and upgrade of traditional footpaths

PROMOTIONAL SUPPORT

We can provide small samples of any featured products, or alternatively we supply sample boxes of our most popular decorative, dashing or grantex range of products. We also provide attractive display boards for our customers. Products are supplied in either, customer branded, or our own branded and bar-coded bags or bulk bags.

Extensive bag range

Merchant flyers

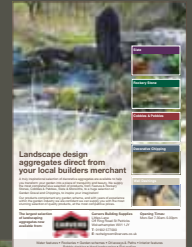

Grantex brochure – A selection of dried aggregate granules for resin bonded, and anti skid surfacing.

POS support material Display Boards 2400 x 600mm

Advertising support packages

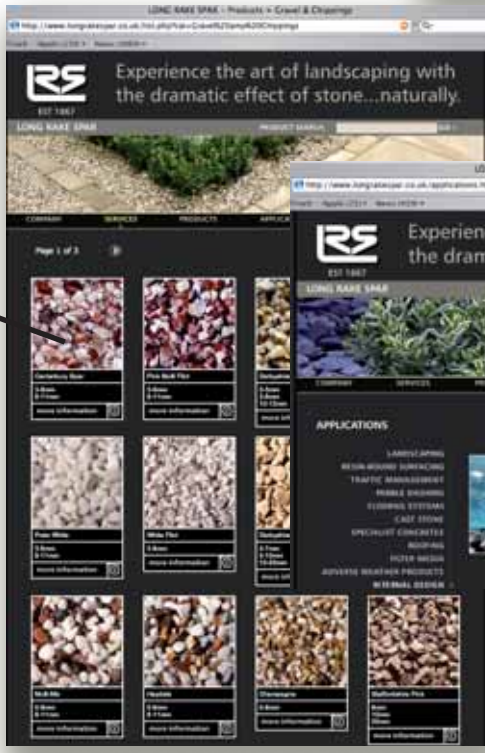

Our traditional marketing support services are complemented by a comprehensive website featuring our entire product range, and offering full online technical support.

A brief introduction of our company, providing an insight into the many market areas we supply into. Products are displayed in a clear, concise, format, with the option of full supporting technical data if required.

TECHNICAL DATA - Full supporting technical data is available for all our products. This provides a comprehensive guide to product sizes, suitable applications, main uses, colour, shape, format supplied and rock type. We also specify whether the product is suitable for incorporating into aquatics.

APPLICATIONS - Products can be viewed by their use, providing guidance for customers who are uncertain which products will be suitable for their specific purpose.

The Long Rake mineral vein was originally worked for lead and silver in Roman times. The company have subsequently been mining and processing Derbyshire Spar (calcite) at this same site since 1867 to the present day. Although Derbyshire Spar remains a core product, the business is now extremely diverse, offering specialised aggregates to meet any application.

We also offer on-site facilities for contract processing, which include crushing, washing, blending, drying, screening, and bagging in either bulk bags, pre-pack, or mini bags.

Long Rake Spar recognises that the requirements of its customers are paramount. To this end we ensure:

Supply of the highest quality products
Efficient, friendly service

Full technical support
Competitive pricing

On time deliveries
Development of new products

Our environmental policy dictates that we only supply ethically sourced materials from sustainable deposits, being operated within current legislative and ecological parameters. We also undertake, to source recycled products or industrial bi-products for relevant applications, where ever possible.

Long Rake Spar has a designated Sales Team who offer friendly advice and quality service to our potential and existing customers. They are supported by our professional in-house sales staff, who provide a wealth of experience and support across all the supply sectors in which we operate.
