## MAJESTIC CASE STUDIES

### BROWN'S HOTEL, LONDON

Without question one of the most famous luxury hotels in the capital, sophistication and classic English style are the hallmarks of the legendary Brown's Hotel. Following a £24 million restoration, Brown's has been restored to its rightful position as one of the most intimate and charming hotels in London. The interiors are contemporary and have a real sense of style, while retaining much of their original, quintessentially English elegance.

Majestic Frameless Shower Screens were selected for the restoration personally by The Rocco Forte Collection's Director of Design, Olga Polizzi. Approximately 70 Deauville and Rio model enclosures were bespoke manufactured to the exact requirements of the design team. With aesthetics and performance

high priorities, recessed glazing profiles were specified to the walls and base of each enclosure, providing a minimal look in keeping with the rest of the interior. Doors were provided with Long 'D' handles and all components were finished in chrome.

### THE SOHO HOTEL LONDON

Majestic Shower Screens have been specified on every Firdale Hotels UK project including The Soho Hotel, London. Firdale Hotels are renowned for their stunning décor, reflected by the fact that owner and designer Kit Kemp was awarded the Andrew Martin International Interior Designer of the Year for 2008.

Described by Tatler magazine as 'The most glamorous hotel in the world', The Soho Hotel is probably the finest boutique hotel in the UK. With a wide variety of bathrooms, approximately 90 Frameless Collection shower screens were provided, consisting of Napoli, Biarritz, Rio and Maine models. Minimal styling, easy installation and high performance were key requirements, all fulfilled

through the use of 24mm surface profiles to the wall and base of each screen. Doors were provided with Long 'D' handles and all components were finished in chrome.

## MAJESTIC FRAMELESS COLLECTION

The market leading Frameless Collection has been created for contemporary living.

Bespoke specialists, the majority of Frameless Collection shower screens are tailored to our customer's exact requirements.

Our patented glazing system allows us to offer the most minimal look available whilst keeping installation simple.

Majestic are the only manufacturer to guarantee a watertight Frameless enclosure.

All models are suitable for installation over shower trays and in wet room environments.

All Majestic Shower Screens carry a lifetime guarantee.

## VIGO

### ALCOVE WITH IN-LINE PANEL AND SLIDING DOOR

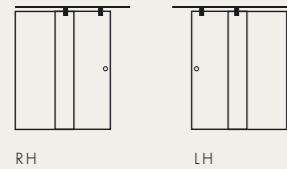

All Majestic shower screens and anti-limescale glass protection carry a lifetime guarantee.

Prices listed are for standard size shower screens with clear glass and chrome fittings at 2050mm high.

Misted glass is available, price on application.

## SLIDING DOORS MATERIALS – GLASS AND FITTINGS

### GLASS

Frameless Collection sliding door shower screens Vigo and Toulon are made in 8mm thick glass. All glass is available both clear and misted. In house facilities enable us to provide almost any design of misted finish. Anti-limescale glass protection (see page 70) is available and is guaranteed for life.

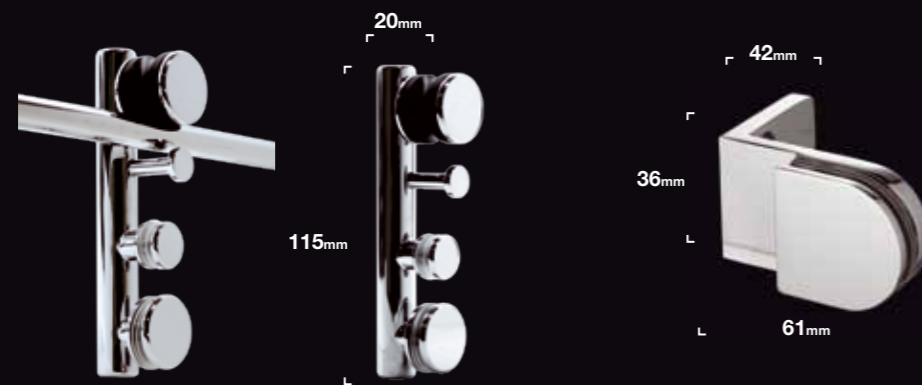

Majestic are able to offer low iron, opti-clear glass as a bespoke option along with the following colours: Smoke/Grey, Bronze, Blue and Green.

All glass is toughened safety glass to: BS EN 12150, BS EN 12600 and ANSI Z97.1-2004.

### FITTINGS

Door rollers and door stops are precision engineered solid brass. The door rail is made in high purity stainless steel, Grade 316. Glazing profiles are made in highly polished aluminium, BS 1615.

Frameless Collection sliding door shower screens Vigo and Toulon are available in chrome only.

DOOR ROLLER

GLASS TO WALL BRACKET

DOOR RAIL AND STOP

## SLIDING DOOR PROFILE INFORMATION AND SEAL

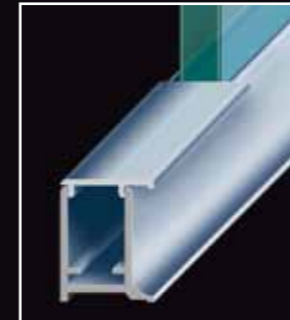

Two glazing profiles are provided within the Sliding Door range.

### SLIDING DOOR UNDERFRAME

All shower screens fitted with the Majestic Underframe are guaranteed watertight under normal conditions and use. Water jetted at pressure onto the interface of glass doors and walls will naturally force an exit.

Our guarantees are fully described in our terms and conditions.

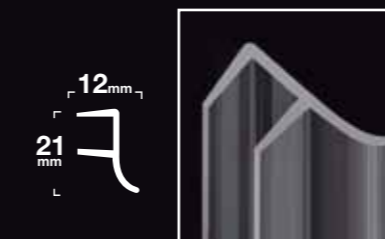

Your statutory rights are not affected.

SLIDING DOOR UNDERFRAME

24MM SURFACE PROFILE  
(allows up to 18mm adjustment)

### 24mm SURFACE PROFILE

This surface mounted profile provides generous adjustment.

TO WALL: The 24mm surface profile is supplied as the glass to wall fixing for all Vigo and Toulon shower screens. It provides an adjustment of 18mm allowing the glass to sit  $\pm 9$ mm from the centre of the profile (see illustration).

SEAL SL1 is provided for glass to glass meeting of doors to in-line fixed panels and vertical door edges meeting walls.

Provided in clear PVC.

### STANDARD HANDLE

#### DISCREET FINGER PULL

Polished 60mm diameter two finger pull for total simplicity.

### BESPOKE HANDLE OPTIONS

A selection of alternative handles are available for bespoke sliding shower doors: 112MM Short D, 112mm Contour and 450mm Long D. These can be viewed on page 43.

Monaco with UV Bonded return, see page 40.

## MONACO

### WALK-IN WITH SINGLE FIXED PANEL

All Majestic shower screens and anti-limescale glass protection carry a lifetime guarantee.

## FRAMELESS MATERIALS – GLASS AND FITTINGS

### GLASS

All Frameless Collection shower screens are made in 10mm thick glass. All glass is available both clear and misted. In house facilities enable us to provide almost any design of misted finish. Anti-limescale glass protection (see page 70) is available and is guaranteed for life.

Majestic are able to offer low iron, opti-clear glass as a bespoke option along with the following colours: Smoke/Grey, Bronze, Blue and Green.

All glass is toughened safety glass to: BS EN 12150, BS EN 12600 and ANSI Z97.1-2004.

### FITTINGS

Hinges and brackets are precision engineered solid brass. Handles and staybars are composed of high purity stainless steel, Grade 316. Glazing profiles are made in highly polished aluminium, BS 1615.

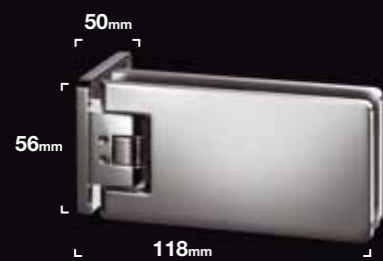

Three variations of metal finish are available, bright chrome, bright nickel and brushed nickel.

GLASS TO WALL BRACKET

GLASS TO GLASS BRACKET

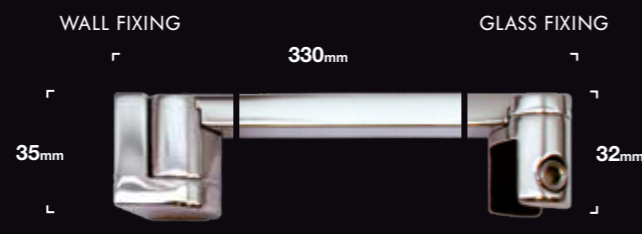

GLASS TO WALL HINGE

GLASS TO GLASS HINGE

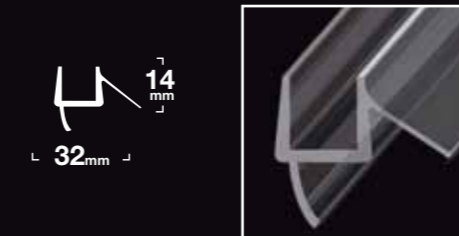

ADJUSTABLE STAYBAR PROVIDES EXTRA SUPPORT FOR VERY WIDE PANELS AND THREE SIDED ENCLOSURES

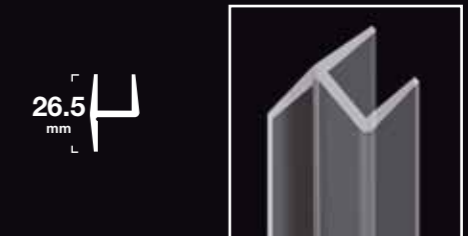

45° STAYBAR PROVIDES INCREASED SUPPORT FOR MAXIMUM COMFORT

### SEALS

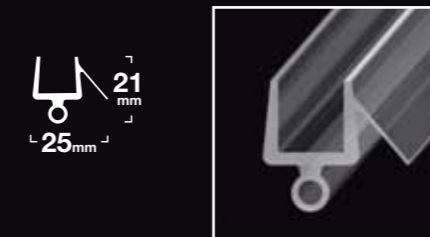

Provided in clear PVC.

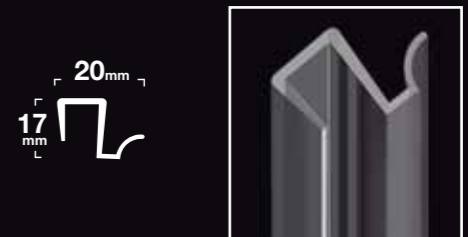

SEAL 1916 is always provided for the base of doors when using underframe.

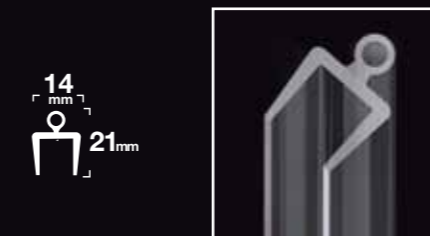

SEAL 1936 for glass to glass meeting of doors to in-line fixed panels.

SEAL 1915 is always provided for the base of hinged leaf bath screens. Also provided for the base of doors when underframe is not used.

SEAL 1956 for doors closing onto return panels at 90°.

SEAL 1929 for vertical door edges meeting walls.

SEAL 1954 for doors closing onto return panels at 135°.

### UV BONDING

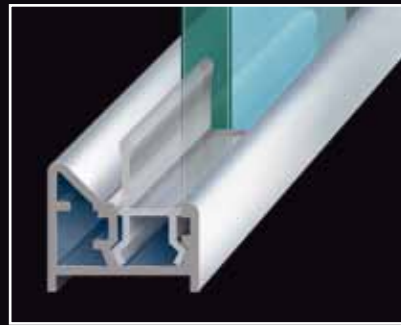

UV bonding is a process which enables glass panels to be joined without the use of metal fittings and silicone. The join is incredibly strong and completely invisible, leaving clean, undisturbed glass lines for an ultra minimal finish.

Majestic are able to offer a bespoke UV Bonding service for Frameless Collection shower screens. Please contact us for further information and pricing.

## FRAMELESS BESPOKE PROFILES SELECTION

A selection of glazing profiles is offered within the Bespoke range. Each model (excluding Maine and Genoa) requires a base profile and a wall profile.

MAJESTIC UNDERFRAME

### UNDERFRAME

All shower screens fitted with the Majestic Underframe are guaranteed watertight under normal conditions and use. Water jetted at pressure onto the interface of glass doors and walls will naturally force an exit.

Our guarantees are fully described in our terms and conditions. Your statutory rights are not affected.

TO BASE The Majestic Underframe can be used as the base fixing on all shower screens except Genoa, Valletta, Monaco, Malindi and Oslo models.

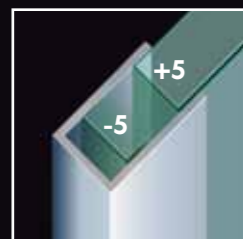

### 10mm RECESSED PROFILE

The 10mm recessed profile (set flush into the floor) achieves the ultimate minimal look. The depth of this profile enables easy installation into marble and floor tiles.

TO BASE The 10mm recessed profile can be used as the base fixing for all frameless shower screens.

10MM RECESSED PROFILE

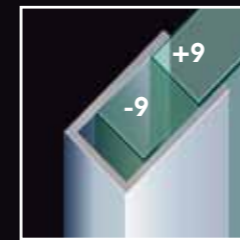

17MM SURFACE PROFILE  
(allows up to 10mm adjustment)

### 17mm SURFACE PROFILE

This slim profile is the most minimal surface mounted option offered by Majestic.

TO WALL The 17mm surface profile provides an adjustment of 10mm allowing the glass to sit  $\pm 5$ mm from the centre of the profile (see illustration). Bespoke shower screens are made to measure and the 10mm adjustment is adequate.

TO BASE: The 17mm Surface Profile can be used as the base fixing for all frameless shower screens.

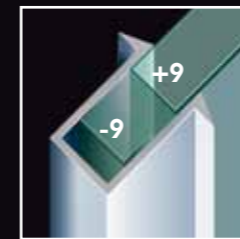

24MM SURFACE PROFILE  
(allows up to 18mm adjustment)

### 24mm SURFACE PROFILE

This surface mounted profile provides generous adjustment.

TO WALL The 24mm surface profile provides an adjustment of 18mm allowing the glass to sit  $\pm 9$ mm from the centre of the profile (see illustration).

TO BASE: The 24mm surface profile can be used as the base fixing for all frameless shower screens.

24MM RECESSED PROFILE  
(allows up to 18mm adjustment)

### 24mm RECESSED PROFILE

The 24mm recessed profile (set flush into the wall) achieves the ultimate minimal look whilst providing generous adjustment.

TO WALL The 24mm recessed profile provides an adjustment of 18mm allowing the glass to sit  $\pm 9$ mm from the centre of the profile (see illustration).

### PLEASE NOTE

Majestic are capable of creating shower screens to fit any bathroom perfectly. However, there are certain limitations regarding the size of individual pieces of glass:

Minimum Panel Width – 200mm

Maximum Panel Width supporting a hinged Door – 500mm

Maximum Door Width hinged off a panel – 700mm

Maximum Door Width hinged off a Wall – 900mm

Maximum Panel size 43,200 cm<sup>2</sup>

Doors over 700mm wide will be supplied with three hinges.

## FRAMELESS BESPOKE HANDLE SELECTION

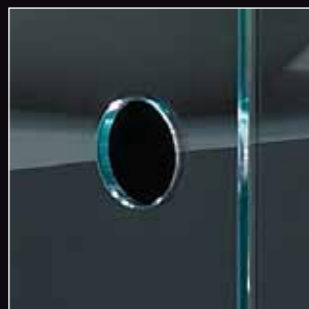

Majestic Bespoke shower screens come with a choice of five designer handles:

112MM SHORT D HANDLE

112MM CONTOUR HANDLE

DISCREET FINGER PULL

Polished 60mm diameter

two finger pull for total simplicity

£100 inc. VAT.

450MM LONG D HANDLE

425MM AND 475MM TOWEL RAIL HANDLE

## FRAMELESS STANDARD PROFILE INFORMATION

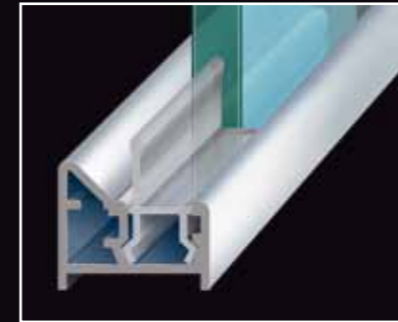

Two glazing profiles are provided within the Standard range.

### UNDERFRAME

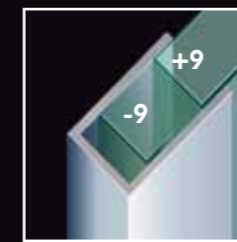

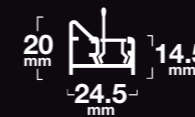

All shower screens fitted with the Majestic Underframe are guaranteed watertight under normal conditions and use. Water jetted at pressure onto the interface of glass doors and walls will naturally force an exit.

Our guarantees are fully described in our terms and conditions. Your statutory rights are not affected.

TO BASE: The Majestic Underframe is supplied as the base fixing for all Standard Rio, Portofino, Venice and Barcelona models.

MAJESTIC UNDERFRAME

24MM SURFACE PROFILE  
(allows up to 18mm adjustment)

### 24mm SURFACE PROFILE

This surface mounted profile provides generous adjustment.

TO WALL: The 24mm surface profile is supplied as the glass to wall fixing for all Standard models apart from Genoa, which is hinged directly off the wall. It provides an adjustment of 18mm allowing the glass to sit  $\pm 9$ mm from the centre of the profile (see illustration).

TO BASE: The 24mm surface profile is also supplied as the base fixing for all Standard Valletta, Monaco, Malindi and Oslo models.

## FRAMELESS STANDARD HANDLE SELECTION

Majestic Standard showers screens come with a choice of two designer handles:

112MM SHORT D HANDLE

112MM CONTOUR HANDLE

A close-up photograph of a shower screen hinge mechanism. The image shows a polished metal cylindrical component with a black rubber seal. The background is a blurred, light-colored surface, likely the shower screen or wall.

## MAJESTIC STILL LIFE COLLECTION

Still Life is the definitive luxury semi-framed shower screen system.

The original Majestic Collection, Still Life has remained virtually unchanged since its release in 1968, a testament to the quality of its timeless design.

Still Life Collection shower screens are solidly constructed from the highest quality materials and feature rigid, no-rattle framework and positive door closing. Our unique Underframe system guarantees a watertight enclosure.

All Majestic shower screens carry a lifetime guarantee.

## GENEVA

### CENTRAL DOOR ENCLOSURE

All Majestic shower screens and anti-limescale glass protection carry a lifetime guarantee.

Prices listed are for standard size shower screens at 2000mm high.

For brushed nickel framework, add 10% to polished nickel price.

Bespoke sizes are available, price on application.

Misted glass is available, price on application.

Available steam proof, please specify at the time of order.

LOIRE CODE Q 12 	1200 x 900	18	£1440	£1540

### HANDING AND DOOR PLACEMENT OPTIONS

Clear glass and chrome fittings with towel rail handle. Left hand tray with side door position.

## ELEGANCE MATERIALS – GLASS AND FITTINGS

### GLASS

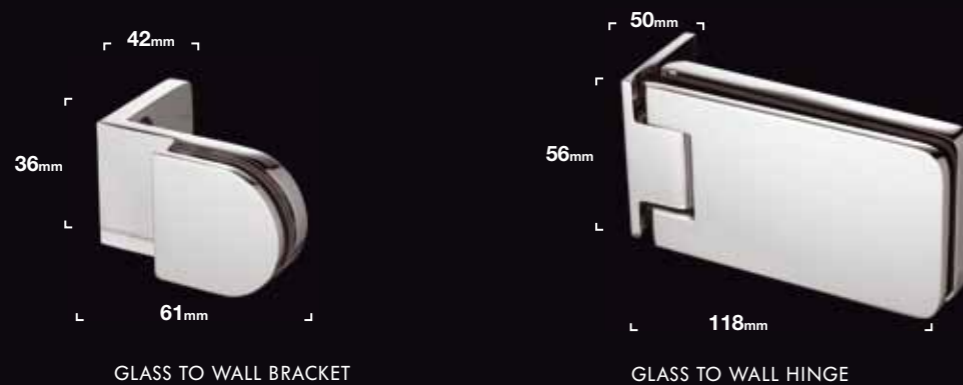

Majestic Elegance glass is clear, 6mm thick with polished edges. Anti-limescale glass protection (see page 70) is available and is guaranteed for life.

All glass is toughened safety glass to: BS EN 12150, BS EN 12600 and ANSI Z97.1-2004.

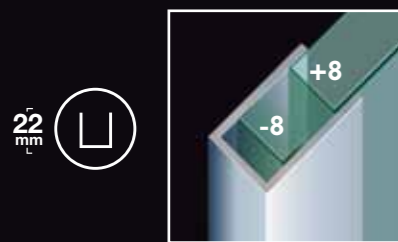

### FITTINGS

Hinges and brackets are precision engineered solid brass. Handles and staybars are composed of high purity stainless steel, Grade 316. Glazing profiles are made in highly polished aluminium, BS 1615.

All Elegance collection fittings are finished in bright chrome.

## ADJUSTMENT

22MM SURFACE PROFILE  
(allows up to 16mm adjustment)

This 22mm glazing profile provides 16mm adjustment allowing the glass to sit  $\pm 8$ mm from the centre of the profile to accommodate wall variation.

## GLASS PROTECTION AND AFTER CARE

### ANTI-LIMESCALE GLASS PROTECTION

Hard water left to dry directly onto the glass surface will leave a calcium deposit known as limescale. If allowed to remain it will eat into the glass surface resulting in a loss of clarity.

Majestic Anti-Limescale Glass Protection is a chemical film barrier which provides two valuable benefits.

01. Limescale deposits can only rest on the Anti-Limescale Glass Protection, shielding the glass surface.
02. Majestic Anti-Limescale Glass Protection inhibits adhesion of water and contaminants. Water run off is very fast and the protected surface is considerably easier to clean.

Majestic Anti-Limescale Glass Protection offers such outstanding performance that we unreservedly guarantee it's effectiveness for life.

Our guarantees are fully described in our terms and conditions. Your statutory rights are not affected.

### AFTER CARE

The effectiveness of Majestic Anti-Limescale Glass Protection is guaranteed for life provided two simple procedures are followed.

01. After use, wipe the glass down with the squeegee supplied with the shower screen.
02. Clean your shower screen regularly with Majestic After Care Cleaner.

Limescale deposits that form will have been caused by lapses in the employment of the above program. These may be removed with Majestic Limescale Remover, specially prepared for use on glass coated with Majestic Anti-Limescale Glass Protection.

All cleaners can be obtained direct from our suppliers.

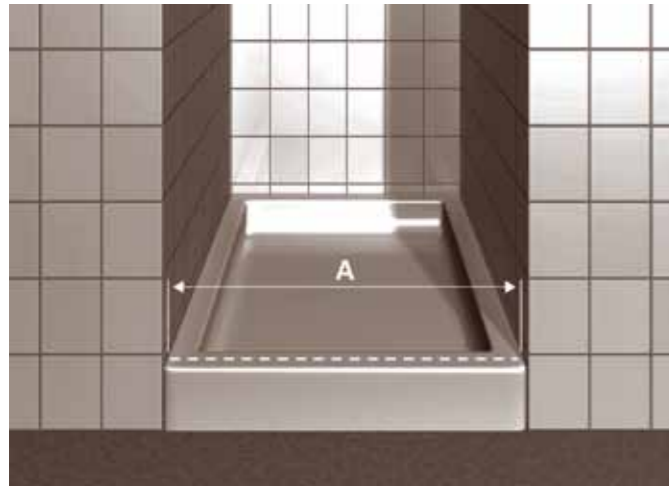

Household cleaners should never be used due to their corrosive and abrasive components.

## MAJESTIC MEASURING GUIDE

Obtaining accurate dimensions for the manufacture of bespoke shower screens is a straightforward process. Simply follow the instructions set out below. Whilst these examples show measurements taken on a shower tray, when measuring a wet room area the method is exactly the same.

### STRAIGHT ENCLOSURES (ALCOVES)

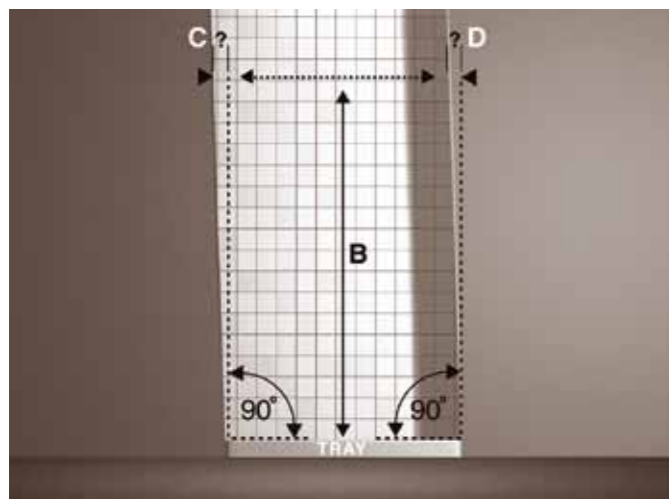

Measure the width of the alcove along the shower tray. Always measure to finished tiled walls, never provide Majestic with overall shower tray dimensions.

#### BASE DIMENSIONS:

Measurement A – Base Width of Alcove \_\_\_\_\_ mm

Specify the height required (standard height is 2000mm). The walls may not be plumb. Measure how much each wall leans in or out.

Measurement B – Height of shower screen \_\_\_\_\_ mm

Measurement C – Left Hand Wall Leans in/out\* \_\_\_\_\_ mm

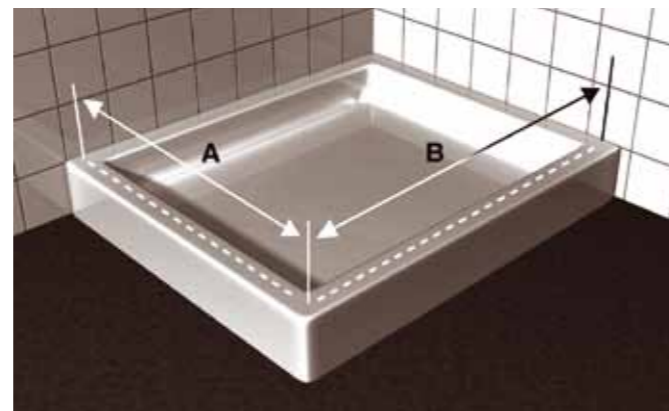

Measurement D – Right Hand Wall Leans in/out\* \_\_\_\_\_ mm

\*underline applicable

### CORNER ENCLOSURES

Measure the front and side widths along the shower tray. Always measure to finished tiled walls, never provide Majestic with overall shower tray dimensions.

Keep in mind that the dimensions you give will be the outer dimensions of the enclosure. Avoid measuring too close to the edges and corner of the tray.

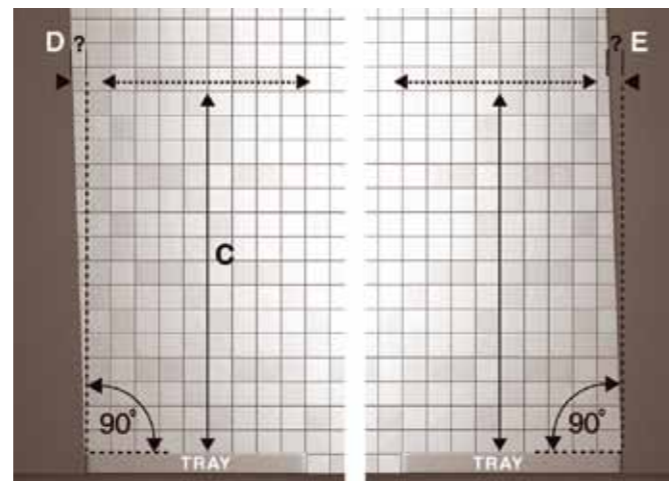

#### BASE DIMENSIONS:

Measurement A – Front Width of Corner Enclosure \_\_\_\_\_ mm

Measurement B – Side Width of Corner Enclosure \_\_\_\_\_ mm

Specify the height required (standard height is 2000mm). The walls may not be plumb. Measure how much each wall leans in or out.

Measurement C – Height of shower screen \_\_\_\_\_ mm

Measurement D – Left Hand Wall Leans in/out\* \_\_\_\_\_ mm

Measurement E – Right Hand Wall Leans in/out\* \_\_\_\_\_ mm

\*underline applicable
