

NEW! ACO ATec high performance finish

ACO ATec COATING IS A HIGH PERFORMANCE FINISH DESIGNED FOR THE MOST DEMANDING OF ENVIRONMENTS.

The black corrosion resistant coating provides a strong durable finish which maintains the overall aesthetics of the grating.

ACO ATec provides up to 10 times longer protection against corrosion than standard water based surface coatings.

ACO ATec IS AVAILABLE FOR THE FOLLOWING PRODUCTS:

ACO MultiDrain™ M100D/M100PPD

Gratings for Load class C 250 / D 400+ applications with ACO ATec corrosion resistant coating

Product code	Description	Length (mm)	Width overall (mm)	Weight (kg)
23409	ATec coated Heelguard ductile iron 23409DL 	500	123	4.2

NEW! 23409DL ATec coated Heelguard ductile iron

ACO MultiDrain™ M150D/M150PPD

Gratings for Load class C 250 / D 400+ applications with ACO ATec corrosion resistant coating

Product code	Description	Length (mm)	Width overall (mm)	Weight (kg)
23169	ATec coated Heelguard ductile iron 23169DL 	500	173	6.8

NEW! 23169DL ATec coated Heelguard™ ductile iron

ACO MultiDrain™ M200D/M200PPD

Gratings for Load class C 250 / D 400+ applications with ACO ATec corrosion resistant coating

Product code	Description	Length (mm)	Width overall (mm)	Weight (kg)
23229	ATec coated Heelguard ductile iron 23229DL 	500	223	10.3

NEW! 23229DL ATec coated Heelguard™ ductile iron

† Not suitable for carriageways of public roads or motorways

 Indicates security locking feature is available

ACO ATec coating comes as standard for the ACO Qmax® range with ductile iron rails, [click here](#) for more information.

For further information please contact the ACO Water Management Sales Office.
