CONTEMPORARY STREET FURNITURE

BENCHMARK

BEAUTIFUL OUTDOOR FURNITURE THAT IS BUILT TO LAST

The combination of our craftsmanship and expert knowledge of timber with Wales & Wales' well-considered contemporary design results in outdoor furniture that is not only beautiful but importantly, is also built to last.

The collection includes backless, curved and full bench designs in varying sizes and configurations. We offer a hand carving service so that benches can be supplied with crests and inscriptions.

Bespoke projects are a significant part of our business, whether custom-made adaptations to our existing designs or development of a client's own design.

Our in-house design team will work with you to develop your designs from initial briefs and sketch proposals, through samples and mock-ups, full CAD drawings and modelling, to the completed design.

BEXHILL ON SEA

BEXHILL ON SEA

Made in FSC oak and iroko, our standard Norfolk and Chico benches, bespoke wall top benches and huge flagpole storage boxes are designed and built to withstand the harsh environment of this seafront location.

ST PAUL'S CATHEDRAL

Our benches grace many of London's most iconic spaces. Built to last, they are still looking good after many years in situ.

WOODLAND TRUST HQ

A bespoke commission, this solid oak bench seating winds its way around the garden, defining the planting areas.

FOUNTAIN PLACE, DALLAS

A bespoke version of our Norfolk range with revised leg profile and adjustable stainless steel feet allowed these benches to be freestanding and reconfigurable.

THE ROSEWOOD

Heated slatted benches, love benches and dining chairs were commissioned for this luxury London hotel. Made in natural untreated oak, the pieces will weather and grow more characterful with age.

[Visit project online](#)

CATFORD BROADWAY

A mini bench for children and a double aspect bench, both bespoke versions of the Chico, bring a little soul to this busy high street.

[Visit project online](#)

PRIVATE GARDEN

The curves of our Meko bench complement the sweeping lines of this contemporary West Sussex garden. The modular format makes a variety of configurations possible including curved and 's' shaped layouts with benches linking end to end to form longer runs.

[Visit project online](#)

KENNINGTON PARK

A bespoke curved version of the Chico and special litter bins were made for this much loved London Park.

[Visit project online](#)

FULHAM REACH, CHELSEA

Using steam bent oak to create the curves, we made these bespoke Norfolk Benches to complement the circular terrace garden of this Chelsea development.

[Visit project online](#)

BEREWOOD PRIMARY SCHOOL

With a brief for contemporary looks, robust construction and competitive pricing, we supplied our Meko benches for this new Hampshire primary school.

BLUEWATER

Our backless Chico is the perfect spot to rest after shopping. Made from oak or iroko in a variety of sizes, it has the option of an additional armrest for longer versions.

HEREFORD CATHEDRAL

HEREFORD CATHEDRAL

Our Chico outdoor benches were commissioned as memorial benches for this architecturally sensitive area. Each bench was hand carved with detailed inscriptions and emblems.

BENCHMARK

Sean Sutcliffe and Terence Conran founded Benchmark in 1984 with a dream of creating a craft based workshop that produced furniture on a scale that would provide customers with high quality, beautifully designed furniture made in a responsible way and at a reasonable price.

We have grown significantly since those early days but that original vision is still our driving force. We are now a team of 70 craftspeople in over 40,000 sq ft of workshops for timber milling, cabinet making, veneering, spray shops, metalworking, and in-house upholstery as well as design studio.

Our love of making starts from the stewardship of trees, down to the hands-on-making by our highly skilled team. We believe firmly that the pleasure gained from using a piece is directly related to the care given by the hand of the maker.

As well as bespoke projects, we make our own furniture collection which we sell direct from our showroom alongside the workshops.
