“

I have worked with Topturf for some 15 years across The Jockey Clubs London Region. They have installed new systems at Sandown Park and Kempton Park throughout this period and oversee all systems maintenance issues. Their customer service and attention to detail over this period has been excellent and are a real asset to have on board.

CRAIG WILLIAMSON,
SANDOWN PARK RACECOURSE

WE OFFER A DIVERSE RANGE OF BESPOKE SERVICES

- Racecourses
- Business and Retail Parks
- Sports Stadiums
- Parks and Gardens
- Recreational Services

Royal Mid Surrey Golf Club

Sandown Park Racecourse

Introduction

Incorporated in 2000, **Topturf Irrigation**, a family run company, has developed into one of the leading irrigation installation and service support contractors in the UK. This Sussex based company has successfully completed projects in West Africa, Europe and throughout the UK.

Topturf Irrigation was originally a service support company, it was identified that there was a need for a fast reliable service company to carry out repairs in the quickest possible time to all makes and type of irrigation system. Our service and installation engineers are dedicated to ensuring that the original concept is adhered to and have built a reputation of being second to none.

The natural transition for Topturf Irrigation was to progress into complete system design and build, we have quickly established a reputation for producing quality design and build projects. All projects undertaken only utilise the best products available affording our clients total peace of mind.

Your satisfaction is our guarantee

Our promise to you

Topturf Irrigation are committed to providing uncomplicated guidance, efficiency and reliability supported by quality products and workmanship. We aim to provide first class service complete with first class products to deliver quality support and projects within the specified programme and budget.

This promise to you is supported by over 100 years of experience

St George's Hill Lawn Tennis Club

OUR COMMITMENT TO YOU INCLUDES:

■ Survey

We undertake free site surveys in a prompt and efficient manner.

■ Design and estimating

We provide detailed designs which can include aerial photos, line drawings and layout diagrams as well as delivering a clear and transparent estimate.

■ Presentation

We will present our quotes, advise realistic timescales and detail all relevant product information to you in person.

■ Listening

Perhaps the most important point, we will ensure that at every step of the way our team listens to your needs and responds to those requirements without delay.

I have worked with Topturf since it was formed and have watched it grow into a fantastic company. Service is second to none with helpful well trained staff.

DOUGIE ROBERTSON,
WEST HAM UNITED FC

Old Thorns Golf & Country Club

All of our installation teams are polite and friendly, our aim is to ensure that you the client is 100% satisfied with the end product.

Stoke Park Golf Club

Design and Build

Here at **Topturf** we understand that as a client you require a professional, reliable and honest company to provide you with the highest standard of workmanship, using the most relevant and high quality products. We not only deliver this, we work hard to understand your bespoke requirements and turn the designs into reality with the minimum of disturbance.

Old Thorns Golf & Country Club

Topturf have never let us down - they've always been there for us - even when something has failed over a weekend. The engineers show a pride in what they do and it's always a clean, efficient job.

Servicing

Our servicing department has developed an excellent reputation for providing an efficient, reliable and trustworthy service by highly qualified Service Engineers. We know that response times are vital as well as a fast and thorough resolution of any problems that have occurred. We will ensure that everything is done to keep system down time to a minimum.

We offer a range of service plans to suit your needs and also provide bespoke packages for projects that require them.

Whether initially installed by Topturf or not, we can provide you with an effective service plan for the most basic system through to the most sophisticated.

Our servicing team are highly qualified with extensive experience and are the only UK team who are trained at the Otterbine Barebo Headquarters in the USA making them fully conversant with all aspects of aeration installation and aftercare. Our team are also very friendly and are happy to chat over any concerns you may have.

Our service plans can be bespoke to your requirements or you can choose from one of the following service levels:

- 3 Star ★ ★ ★

Offers springtime commission complete with full engineers report and decommission at the end of the year.
- 4 Star ★ ★ ★ ★

Offers the same as the 3 star plan with 3 additional call out visits for emergencies. (We would always recommend that one of these visits be utilised for a full check-over mid season).
- 5 Star ★ ★ ★ ★ ★

Offers the same as the 4 Star but with 5 additional call-outs.
- 5 Star SILVER ★ ★ ★ ★ ★

Offers the same as the 5 Star but with 10 bi-weekly all day visits between April and September or at the client's direction.
- 5 Star GOLD ★ ★ ★ ★ ★

Offers the same as the 5 Star but with 20 weekly all day visits between April and September or at the client's direction.

Aeration

We install only the best quality and cost effective aeration products available (Otterbine Barebo), in all Lakes, Ponds and purpose built water features. Offering you a full consultation, we will provide you with detailed drawings, transparent estimates and if needed, water sampling.

Aeration is the most natural water quality management solution; the aim is to introduce aeration into a pond or lake by adding oxygen creating movement to eliminate stagnant water.

Aeration mixes cool water from the bottom with warm surface water helping sustain marine life & eliminating algae & foul odours. In addition to providing this vital function Otterbine Barebo Aerator Fountains provide many other benefits plus a pleasing visual display. Otterbine Barebo Aerators are considered to be the most effective tools available.

We are proud to have been awarded “Contractor of the Year” by Otterbine for a number of consecutive years

All of our Engineers are trained at Otterbine Barebo’s Headquarters in the USA and attend regular refresher courses to ensure we deliver the very best service.

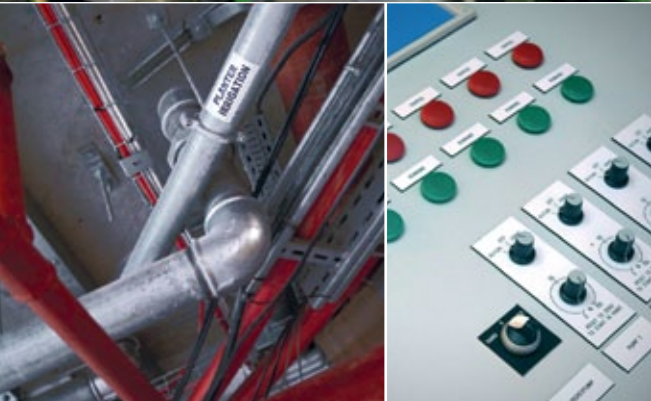

Lythe Hill Hotel and Spa

Old Thorns Golf & Country Club

South Winchester Golf Club

West Ham United Football Club

Sports

We have a combined experience of over 100 years specialising in fully automatic and manually operated irrigation systems for all types of sports surfaces.

We offer a design, supply and build service for golf courses, football pitches, race courses, cricket squares and outfields, bowling and croquet lawns or any other type of surface that requires measured amounts of water.

We at Topturf, understand that you as the client require a professional, reliable and honest company to provide you with the highest standard of workmanship using only the very best products and materials available.

Our installation teams are polite, friendly and work hard to ensure your complete satisfaction with the end product.

Pumps

New things are happening at Topturf Irrigation - we have now added a booster pump set division to our ever-increasing portfolio.

As always, we will design, supply and build to meet our clients' specification whilst maintaining the highest industry standards. Utilising only the best pumps available, Lowara, Grundfos or Caprari multi-stage, cold-water booster pumps come complete with Aqualectra control panels. Either Danfoss or Lowara variable speed drive controls or single fixed speed are available. All pump sets are commissioned in our workshop prior to dispatch & come with a 12 month warranty.

Trade Counter

Why not visit our trade counter and discuss your requirements with our friendly team of professionals and take a closer look at the vast range of stock. The most popular products from all manufacturers are on the shelf available for immediate dispatch or collection.

“

Just before the championships, we had a problem with one of the pump sets - one of the control panels was playing up. It was six or seven at night and the engineers came in on their way home from another job to come and sort us out, so we knew we had water that night - so it's a huge benefit to have a supplier like that.
