

Handycoat® EZ-Skim™

**Interior ready-mixed filler and
skimming compound**

- Easy application
- Suitable for DIY
- Easy sanding
- Quick drying

Handycoat® EZ-Skim™

Interior ready-mixed filler and skimming compound

A ready-to-use filler and board skimming compound for most building surfaces, including sand / cement render and gypsum board.

It achieves a high quality, smooth surface for painting. Suitable for both the experienced painter and home decorator to repair and touch up surfaces, both old and new, prior to commencing with painting.

Benefits

Handycoat EZ-Skim is made from a selected blend of acrylic polymers and precisely graded fillers.

- Easy to use
- Vapour permeable allowing the substrate to breathe
- High adhesion power
- Does not flake off
- Good coverage
- Quick drying.

Areas of use

It is suitable for skimming gypsum board, sand / cement render, concrete panels and lightweight concrete surfaces.

When dry, Handycoat EZ-Skim bonds extremely well to cementitious materials, gypsum building boards, Sprayplasters, wood, and all common building surfaces.
