“The Cotswold Way”

The garden to be a modern, stylish and structured space, softened with naturalistic, flowing planting. Materials that are inexpensive, rural and agricultural in feel shall be used in a contemporary way creating a space for entertaining. Water, sinuous curved walls and fenceline, create movement and a sense of a journey through the garden as a metaphor for the changing trends and economic cycles experienced by the company over its 50 year history.

The garden is designed for a client that has strong connections to the Cotswolds, with a love of modern, contemporary design, requiring a space in their garden to entertain, relax and escape to. The garden is inspired by the natural environment and local rural materials of the Cotswolds.

Celebrating 50 years of ‘Turning Visions into Reality’ in The Cotswolds

Established in 1965, Cotswold Estates & Gardens has evolved over the years to become acknowledged for its high standards and professional approach to a diverse variety of landscape projects.

Our reputation is illustrated by the repeat work we have achieved with well recognised designers and clients, on high profile projects.

Our professionally qualified personnel aim to work together with the designers and clients to provide a comprehensive service and quality result - *turning visions into reality*.

Transforming gardens:

- Planning and design
- Construction and maintenance services
- Soft Landscaping – trees, hedges, lawns, turfing and planting
- Hard Landscaping – walls and steps, drives, paths and patios
- Water features, natural swimming ponds, wildflower meadows and water sustainability
- Small courtyards to large country houses.

Formal Gardens • Trees & Hedging • Lawns • Natural Swimming Ponds • Planting • Water Features • Hard Landscaping • Environmental Areas
