

MARLDON M-250 DPM

150033

PRODUCT DESCRIPTION

Marldon M-250 DPM is a polythene damp proof membrane to protect the timber flooring from moisture.

Lay the M-250 down the length of the room and overlap by 10cm and tape down using the Marldon 96mm Jointing Tape. Make sure that there are no sharp objects on the subfloor that could puncture the dpm.

Thickness	250 micron polythene damp proof membrane.
Roll Size	100sqmetres.
Vapour Protection	Water Vapor Transmission Rate ($\text{gm}^{-2}\text{day}^{-1}$) 0.50 BS 3177 (25°C/75%RH)
	Water Vapor Resistance (MNsg^{-1}) 410 BS 3177 (25°C/75% RH)
