

GRAPHIC PANELS

Please follow the instructions below to ensure the correct artwork format for the panel.

- Panels are manufactured 15mm larger all round than the '**visible area**', to allow for an overframe. For example an A2 panel has a '**visible area**' of 594x420mm and a '**finished area**' of 624x450mm.
- Any important text & images must fit within 5mm smaller all round than the '**visible area**'. For example the A2 panel as above would have a '**safe area**' of 584x410mm.
- Any background colour/image should bleed out to the outside edge of the '**finished area**'.

Panel size	Safe area (mm)	Visible area (mm)	Finished area (mm)
A4	287 x 200	297 x 210	327 x 240
A3	410 x 287	420 x 297	450 x 327
A2	584 x 410	594 x 420	624 x 450
A1	831 x 584	841 x 594	871 x 624
A0	1179 x 831	1189 x 841	1219 x 871
