

Description

The Double Back Bench is the ideal option for any project when looking for eco friendly street furniture or park benches.

Constructed from naturally durable locally sourced green oak, and sawn by our local mill to ensure a top quality timber with a minimal carbon footprint.
Green oak needs no preservative or treatment making it maintenance free.

The bench features a simple natural style and robust vandal proof construction making it the perfect choice for a park bench. The seats are angled for comfort and to enable water run off. The benches are supplied fully assembled with a choice of surface fixing or 300mm in ground fixing. We can also supply stainless steel tamper proof brackets.
We are able to offer hand carved lettering on the benches in any font or style.
