

Outdoor Gyms

Our Outdoor Gyms have been designed to extend a variety of exercise opportunities to the wider community. With resistance being provided by the users own body weight, these human powered, carbon neutral exercise stations are perfect for keeping fit and recuperating after illness. Suitable for all users over 1.4m tall.

» Lesson Plans/ Training Packs (Additional cost applies)

We supply support packs to suit your needs, whether the equipment is bought for KS2, KS3 or for adults. Our support packs for KS2 & 3 even include lesson plans as well as equipment use information, all in relation to the new National Curriculum, to really help teachers make full use of the new fitness facilities.

» On Site Training (Additional cost applies)

We are able to provide you with a range of training workshops at a time to suit you.

Courses include: Midday Supervisor (1 hour), Teacher Training (2 hour at twilight) and Pupil Education Programmes (½ or full days). Each includes:-

- A step by step guide to using each individual piece of equipment within your Bundle safely and accurately ensuring maximum benefit to the user.
- Practical ideas on how to adapt the way you use each piece of equipment in order to make the exercises more, or less, challenging to ensure all your pupils are fully engaged.
- Support to ensure you meet the current demands of the National Curriculum for Physical Education (NCPE) when using your Caloo equipment in lessons and includes innovative methods of using your Caloo equipment in ways other than just as a circuit training facility.
- How to use your support publications effectively enabling you to teach engaging and challenging lessons to pupils of all ages.

Contact our sales office for full details of each course.
