Contractor:
Vinci Construction
Adrian Savage (Design Manager)
Andy Curd (Commercial Manager)
Tom Phillips (QS)
Jacques Coetzee (Senior Construction Manager)

Architect:
Stride Treglown

This student accommodation project in central Cardiff has two blocks, linked by an exciting landscape scheme designed by Stride Treglown Landscape Architects. The buildings required cycle shelters, bin stores and service cabinets, all to be contained in a functional but visually pleasing compound, as the area is overlooked by the residents. Working to the site constraints, the products provided were designed to match the architect's aspirations, whilst still achieving the original outcomes required from this structure.
