

Littlecombe is situated in the charming market town of Dursley, overlooking the rolling countryside of the Cotswolds Edge. Langley Design were approached by St Modwen Homes as they required a cycle shelter and bin store at this picturesque development of new homes. Given the short lead time, it was important that St Modwen could rely on Langley Design to offer a quick turnaround. Even with the bespoke design, we still manufactured and installed a high quality product on time and within budget.
