Holbrook House is a new student accommodation development in North Acton, London. Langley Design were delighted to work with PCS Ltd on this project to manufacture and install 2 bespoke pergolas to the roof top terraces. A brand new product was created which has now been added to our Sheldon Range for other customers to enjoy! By combining timber and galvanised powder-coated steel, the structure looks striking and visually impressive. It ties in beautifully with the newly landscaped areas and also provides a shaded walkway and seating area. The units are perfectly positioned to admire the views across London.
