PROJECT NAME: OXFORD BUSINESS PARK

CONTRACTOR: VERDE LANDSCAPES

ARCHITECT: MACGREGOR SMITH

The Oxford Factory Business Park scheme included new terraced areas which required seating for the office staff. Langley Design were appointed by Verde Landscapes to provide our popular Sheldon picnic tables. We manufactured the picnic tables and benches using hardwood iroko timber with galvanised metal frames. This simple yet stylish design, manufactured out of high quality materials ties in beautifully with the newly landscaped areas and enables the office workers to enjoy the outdoors, whether that be socialising, working or dining.
