

PROJECT NAME: JOHN RADCLIFFE HOSPITAL
CONTRACTOR: SDC
ARCHITECT: FJMT STUDIO

LANGLEY DESIGN
EXTERNAL FURNITURE SOLUTIONS

Langley Design were pleased to be chosen by SDC Builders to supply, design and install our products at the John Radcliffe Hospital where they were building a Neuroscience Research Facility which provides purpose-built facilities and research space for the Wellcome Trust & Wolfson Foundation. We were tasked with providing cycle parking and secure bin storage facilities. Due to our bespoke manufacturing capabilities, we were able to combine our cycle shelter and bin store to produce a combination unit that fulfills both requirements. By combining the same palette of materials we use on both of the units, we can produce products that offer the same visuals without compromising on quality or aesthetics.
