NOISE & VIBRATION CONTROL

# CASE STUDY

## ABSorb Wall Panels

Crab Lane Primary School,  
Higher Blackley

### PROJECT INFORMATION

#### Project Objective

TVS were approached to tackle the noisy acoustics in the double external classroom at Crab Lane Primary School. After conducting a survey, we were contracted to supply and fit 22 no. TVS ABSorb 1200 x 600mm Wall Panels.

As there was a lot of existing noticeboards and artwork, we took the decision to install our wall panels at a high level and during the half term holidays to avoid any disruption to both pupils and staff.

#### Product
