Clearstone®

resin bound
permeable surfacing
specialists

Clearstone are resin-bound surfacing specialists. We design, manufacture and install our own permeable systems, combining high quality UV-stable resins with a special blend of aggregates.

Our BBA-certified process ensures the finest materials, expertly installed, give you a first class finish and long-lasting durability.

Whether you're a build contractor, landscape architect or garden designer, our extensive 10 years experience of resin-bound technology means our permeable surfaces are the best match for your next project.

Agrément Certificate
Number 18/5548
CLEARBOUND

Expert installation is key to the permeability and durability of each **Clearbound** surface.

Every Clearbound project is backed by BBA certification, covering each step of the process, from selection of materials to every exacting detail of installation.

Approval by BBA means Clearstone is able to offer a rock-solid guarantee, so specifiers and clients have the confidence that their surface will perform well and look great for years to come.

Clearstone's Clearbound resin bound colour range:

Clearbound Standard Colour Range

Clearstone's Clearbound BBA-approved resin bound paving is a high quality system that provides hard-wearing permeable surfaces for a range of applications.

Clearbound is ideal for situations where drainage and durability are every bit as important as appearance and accessibility.

Driveways and pathways all benefit from resin bound paving. The smooth, attractive surface has no loose chippings, and is suitable for private dwellings, commercial buildings and public spaces.

Our **Clearbound Standard Range** of colours are natural aggregates carefully blended to create a range suited to any location.

Clearstone's Clearbound resin bound colour range:

Clearbound Designer Colour Range

Clearbound takes the BBA-approved system a step further - with an extended palette of softer, lighter colours specially designed for outdoor rooms, paths and courtyards: living spaces where a discerning colour choice really enhances sensory experience.

The **Clearbound Designer Range** offers subtle, light, contemporary colours, ideal for projects that allow living spaces to seamlessly blend the indoor and outdoor areas of a home.

These stones are bound together with aliphatic polymer resin, giving the high-permeability performance that has made Clearstone's BBA-approved Clearbound Standard and Designer ranges the leading choice for resin bound porous surfacing.

Clearbound Prismstone resin bound decorative landscaping system

Clearbound Prismstone, crafted and installed by Clearstone, is a system that combines the highest quality permeable surfacing with the ability to recreate intricate designs, symbols, letters and logos seamlessly integrated within durable surfaces.

At the heart of **Clearbound Prismstone** are powder-coloured quartz aggregates, available in a huge range of colours, from delicate pastel hues to bold show-stopping primaries.

Practical benefits of a **Clearbound** permeable resin bound surfacing

Eco-friendly: When our resin and aggregate mix is laid on porous tarmac, it creates a water-permeable surface which complies with the **Sustainable Drainage Systems (SuDS)** regulations and allows air to circulate too – perfect for driveways, garden paths, tree-pits and areas prone to standing water.

Broad suitability: Driveways, paths, public spaces and decorative landscape features.

Quick to install: On Day 1, we lay it. On Day 2, you can drive or walk on it.

Flexible and seamless: Clearstone resin bound surfacing can be laid with no joins. It's perfect for shaped areas and it can even be laid in decorative patterns.

Fuss-free maintenance: Hard-wearing and resistant to petrol, diesel and oil, our surfaces are easy to keep clean, by sweeping or power-washing.

Resistant to weeds: Unlike block paving, resin bound surfacing doesn't support the growth of weeds. Starved of water, roots can't take hold. You simply brush weeds away.

Easy access: The smooth finish, with no loose stones, is ideal for driveways, paths or ramps used by wheelchairs, buggies or bicycles.

Beautiful, natural colours: Our paved surfaces are made from specialist blends of washed and dried naturally sourced aggregates, encapsulated in UV stable resin. The colours won't fade, even in direct sunlight.

Quality control: The mix of stone and resin is carefully poured and hand-trowelled to a smooth surface. Because we control the process from start to finish you can be sure of a perfect finish.

Where can resin bound paving systems be used?

- Driveways and forecourts.
- Carparks with light traffic.
- Courtyards, terraces and garden paths.
- Roof gardens.
- Tree pits.
- School playgrounds and hospitals.
- Decorative paved areas.
- Heritage sites.
- Regeneration projects.
- Swimming pool and hot tub surrounds.
- Retail parks.

Working Clearstone

Clearstone's Rock-solid quality assurance

We ensure the quality of your resin bound surfaces by handling every part of the process – from manufacture to installation. If anything goes wrong, we put it right. It's that simple. We guarantee our resin bound surfaces against:

- Stone migration
- UV degradation
- Poor quality workmanship
- Cracking
- Colour change

Specification for Resin Bound Surfacing

Attention to detail is part of what makes Clearstone resin bound surfaces perform so well. Visit our website clearstonepaving.co.uk to download Clearstone's specifications sheets which give you all the detail you need to ensure your preparation and design are in order.

Ask for our advice. We'll help you ensure your design and preparation needs are met.
