Construction, Demolition & Remediation,  
Basement Excavation & Groundworks

# Specialist Conveyors for Construction

Over the past 30 years we have worked with:

**Coveya has built a reputation for excellence over the past 30 years and we have become one of the most respected conveyor manufacturers and suppliers of specialist conveyor systems in the UK and globally.**

Each of our customers can be assured of our commitment to customer service and with an expert team of installers and maintenance engineers, we provide a seamless conveyor service which includes a free onsite visit so we can help you to find the right conveyor for your project.

Regardless of the size or complexity of your site, we have conveyors that will efficiently and safely move construction materials and help you to increase productivity. With conveyors available for short and long term hire as well as purchase and with an extensive range of conveyor parts in stock, Coveya is the first place to call if you need a conveyor for construction.

# Easikit™ 300

Hire ✓ Purchase ✓

Engineered for high performance materials handling in tight spaces, the modular Easikit 300 is the narrowest conveyor in our range. The Easikit 300 is compact, lightweight, and powerful and it is designed for efficiency, safely handling up to 20 tons per hour, even at inclines of 45 degrees.

SPECIFICATIONS	
Power supply	110v
Loading method	By hand, Small machine, Wheelbarrow
Mobile or static	Static
Length	Up to 14.5m
Belt width	300mm
Belt speed	0.9m/s
Maximum throughput	20 Tons p/h
Hopper size (if used)	750x800

# Easikit™ 450

Hire ✓ Purchase ✓

The Easikit™ 450 is a simple and compact modular system with a large capacity, which is perfect for low volume material handling. Its robust design supports the removal of rubble and light hard core and it also has a detachable feed hopper.

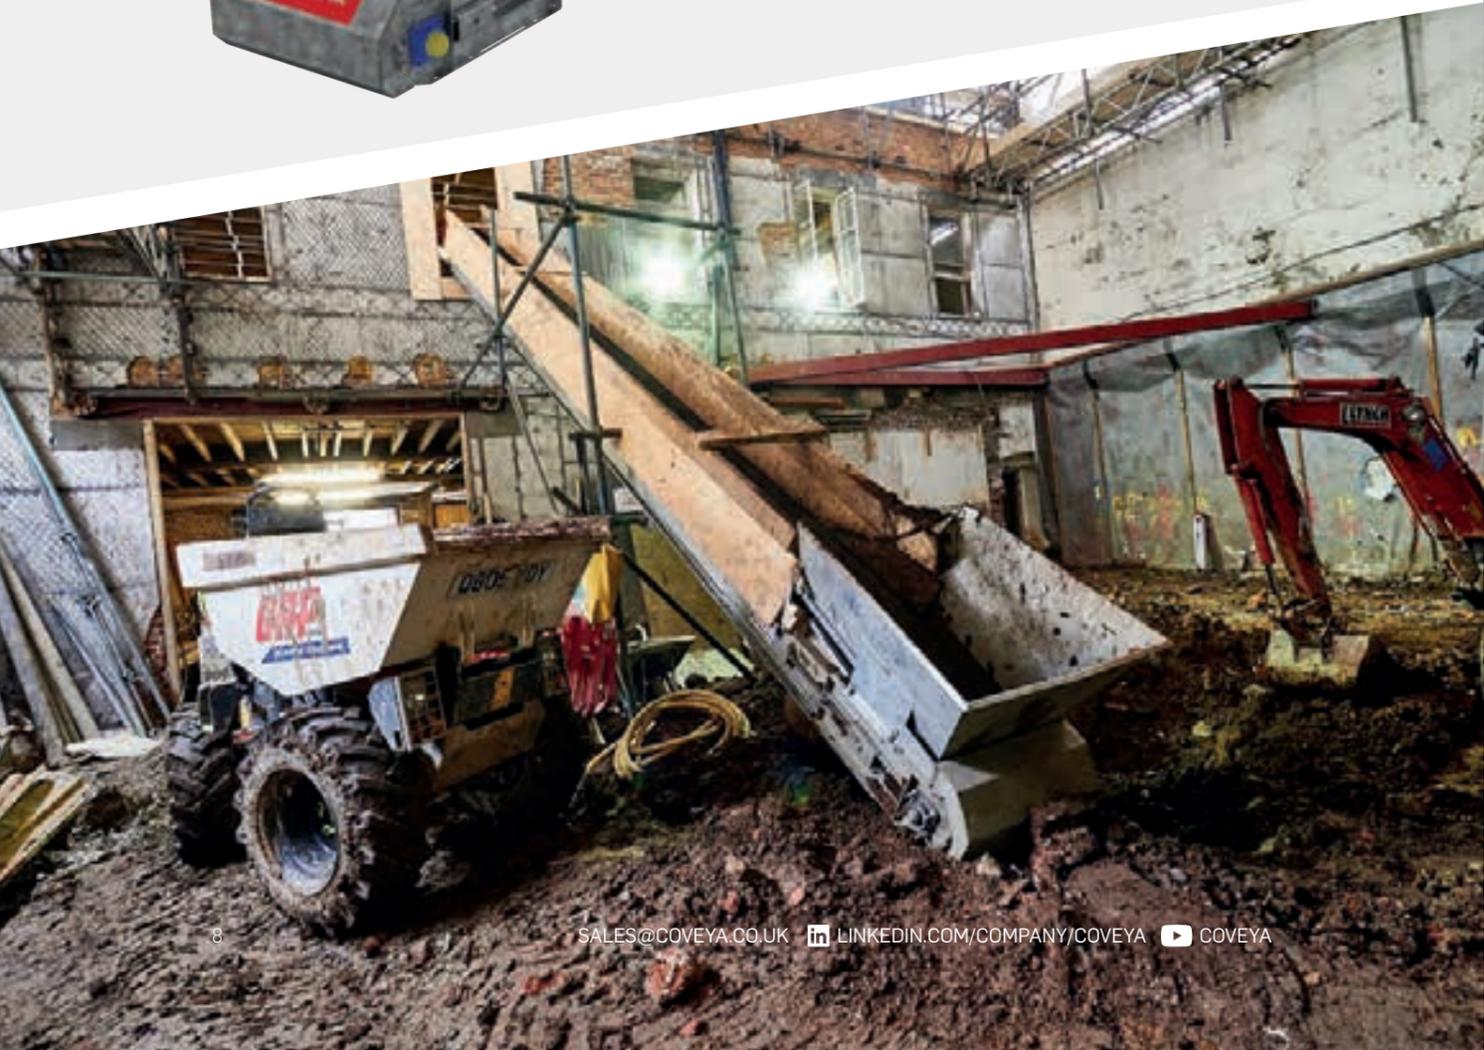

SECTIONS	L (mm)	W (mm)	H (mm)	Kg
Head Unit (no motor)	960	585	310	53
Base tension unit	1190	555	310	72
1m section	1050	525	310	35
2m section	2050	525	310	65

SPECIFICATIONS	
Power supply	110V or 415V
Loading method	By hand, Small machine, Wheelbarrow
Mobile or static	Static
Length	Up to 20m
Weight	Variable 50kg/m
Belt width	450mm
Belt speed	0.9m/s
Maximum throughput	50 tons p/h
Hopper size (if used)	630 x 800mm

# Easikit™ 600

Hire ✓ Purchase ✓

The Easikit™ 600 can offer efficient movement of construction materials including waste, rubble and soil and it has a throughput of up to 100 tons per hour, making it the best conveyor solution for larger construction projects.

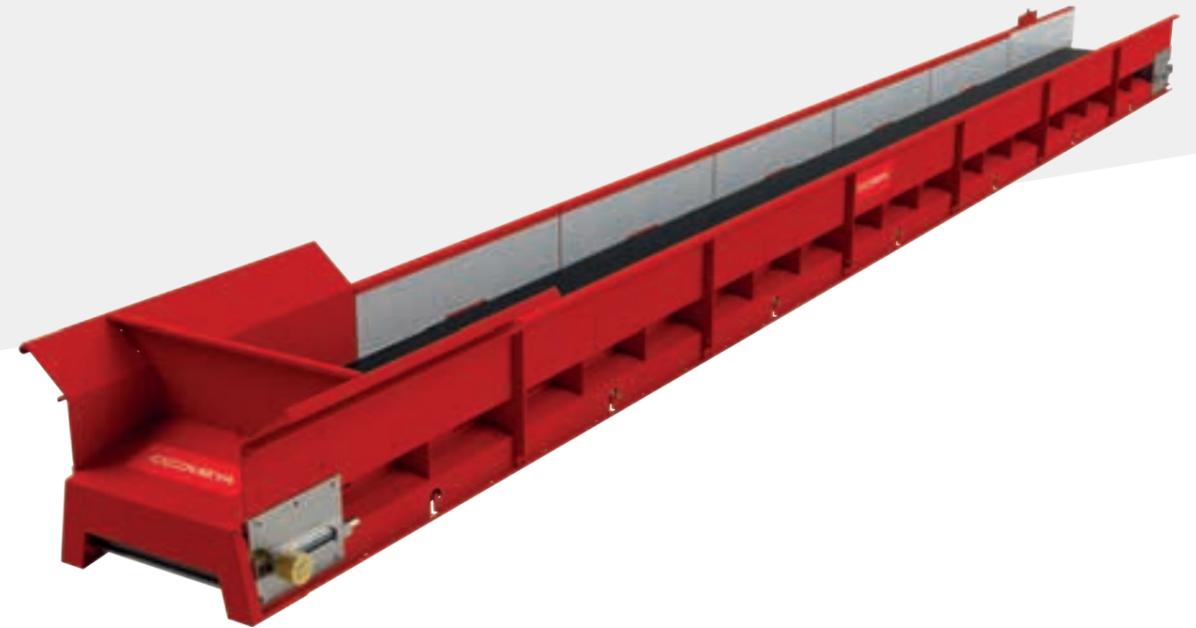

SPECIFICATIONS			
Power supply	415V	Belt width	600mm
Loading method	By hand, Excavator, Small machine, Wheelbarrow	Belt speed	0.2m/s – 1.2 m/s
Mobile or static	Static	Maximum throughput	100 tons p/h
Length	Up to 40m	Hopper size (if used)	785 x 850mm or 940 x 940mm
Weight	Variable 70kg/m	Max. incline angle	25°

SECTIONS	L (mm)	W (mm)	H (mm)	Kg
Head Unit (no motor)	1505	930	285	85
Head Unit (with motor)	1525	1015	300	120
Base tension unit	1545	730	285	93
1.2m section	1350	620	285	43
2.4m section	2550	625	285	85
Available lengths	2.86, 4.06, 6.46, 7.66, 8.86, 10.06, 11.26, 12.46, 13.66, 14.86, 16.06, 17.26, 18.46, 19.66, 20.86, 22.06, 23.26, 24.46, 25.66, 26.86			
Other	Plain, 15mm chevron			

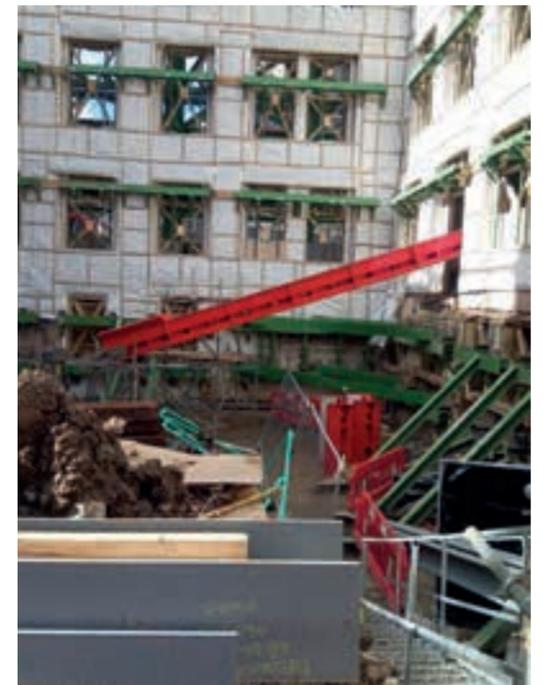

# The GP750

Hire ✓

The GP750's high-performance system and robust design make it the first choice for construction sites. Its wide belt and 5.5kW heavy-duty motor enable it to maintain a throughput of up to 300 tons per hour and it's designed to be low maintenance with a considerable lifespan.

SPECIFICATIONS			
Power supply	415V	Belt speed	1m/s
Loading method	Bobcat, Excavator	Maximum throughput	300 tons p/h
Mobile or static	Static	Hopper size (if used)	1100 x 1100mm
Length	Up to 50m	Max. incline angle	25°
Belt width	750mm		

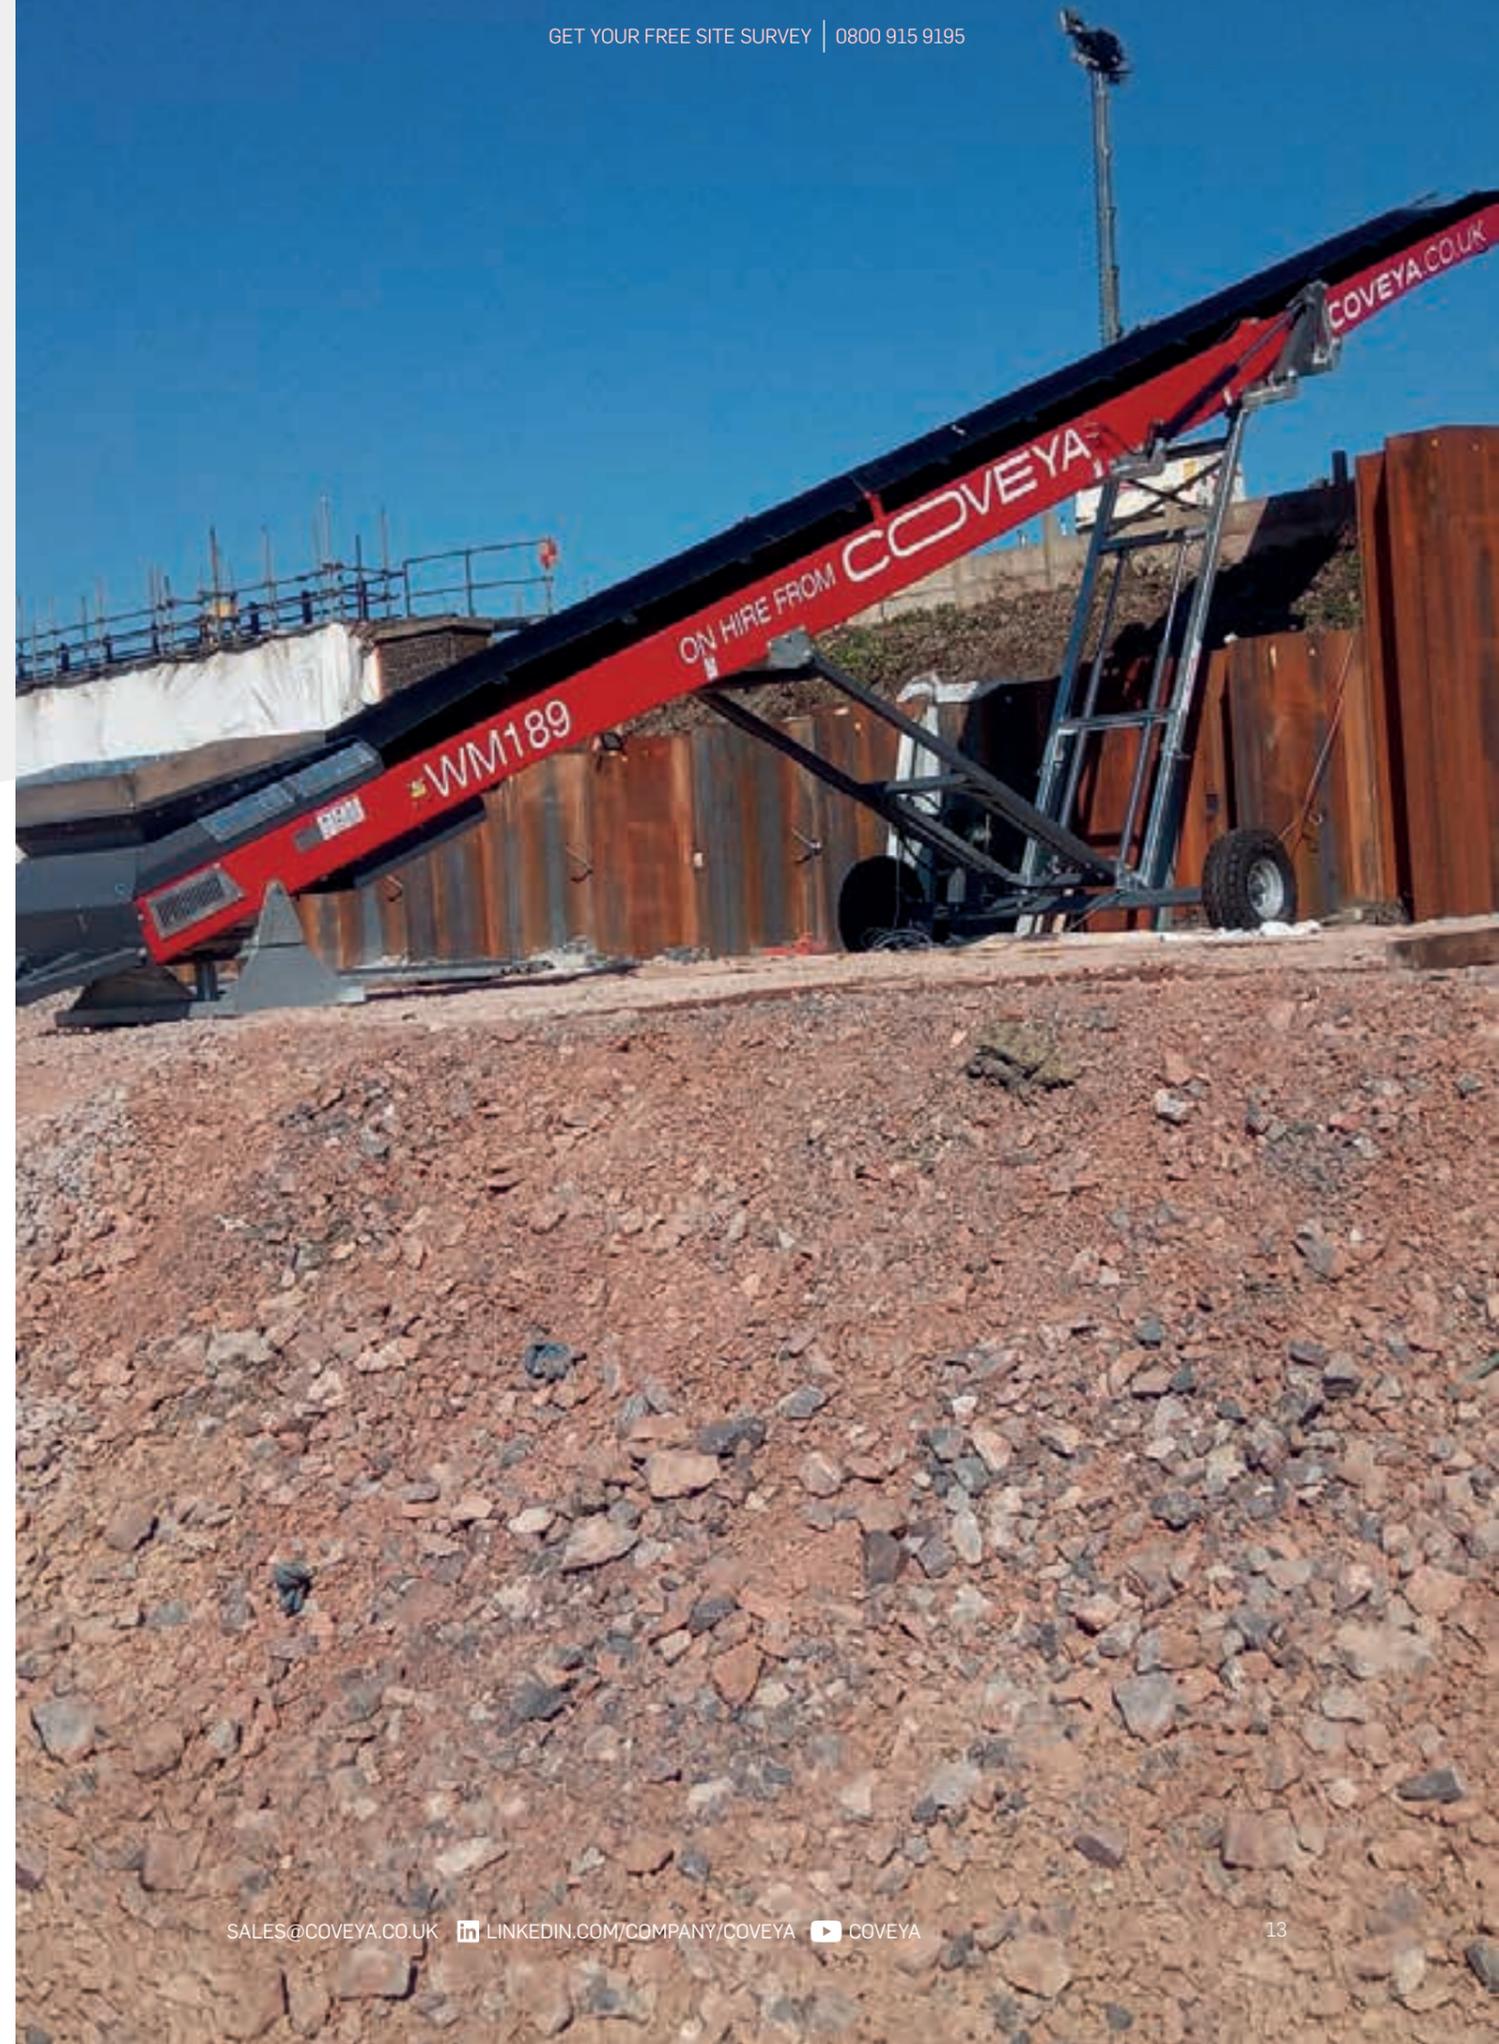

# TM189 Tracked Stockpiler & WM189 Wheeled Stockpiler

Hire ✓ Purchase ✓

Both the tracked and wheeled stockpilers offer the perfect solution for stockpiling and handling large volume of material from wheeled loaders, large excavators or direct from crushing units.

SPECIFICATIONS	
Power supply	415v
Loading method	By hand, Excavator, small machine
Mobile or static	Static
Length	Up to 20m
Belt width	Up to 1000mm wide
Belt speed	0.2m/s-1.2m/s
Maximum throughput	500 Tons p/h

# Bulk Feed Hopper FH510

Hire ✓ Purchase ✓

Our Bulk Feeder Hopper is designed to provide a controlled flow of material onto our conveyors, allowing operators to load systems efficiently with a wheeled loader or excavator. It provides a buffer of material to ensure continuous loading with a speed-adjustable belt and it's perfect for demolition projects.

SPECIFICATIONS			
Power supply	415v Drive	Bulk capacity	15m <sup>3</sup>
Legs	Adjustable height	Length	5m
Discharge height	1m – 1.5m	Width	2m
Belt speed	Variable	Height	3.5m
Discharge gate	Adjustable	Weight	5500kg

# HC1000 Monstaveya™

Hire ✓

Precision engineers for heavy-duty materials movement, the HC100 Monstaveya is the most powerful conveyor solution we supply. It is designed to handle all types of demolition spoil safely and efficiently, providing exceptional throughput and durability.

SPECIFICATIONS	
Power supply	415V
Loading method	Excavator, Large machine
Mobile or static	Static
Length	10m, 12m, 14m, 16m
Weight	3500kg
Belt width	1000mm
Belt speed	1.2m/s
Maximum throughput	500 tons p/h
Hopper size (if used)	1100 x 1800
Max. incline angle	30°

## **OUR INTERNATIONAL DISTRIBUTORS**

Coveya work with a number of international distributors that supply a range of our conveyors supported by servicing, maintenance and quality customer service.
