

RIBBON CYCLE STAND RANGE

Coordinated cycle stands

Three new cycle stands have been introduced as part of the Ribbon range of furniture - a short version to match the profile of the bench support, a larger model of more conventional cycle stand scale, and a tall upright option, which can equally be used as a bollard or marker post. All stands are manufactured from 10mm thick solid flat bar section, complete with a taper bar as standard to assist the visually impaired, and as in-ground or bolt-down versions. All Ribbon cycle stands are hot dip galvanised for ultimate protection against corrosion, with the option of a plastic coated finish in a choice of standard colour options.

• RIB 515

• RIB 750

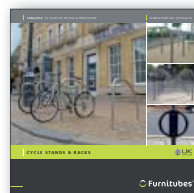

• RIB 195

Plastic coating

A hardwearing plastic coated finish is available in the colours shown
