

CHESHUNT RANGE

Solid construction for traditional or contemporary settings

The robust aesthetic and natural materials of the Cheshunt range make it ideal for a wide variety of locations, including parks and nature reserves, schools, colleges and heritage sites. Cheshunt products are equally well suited to both contemporary and traditional settings. The full range consists of a bench, seat and picnic table. The seat and bench are available in three standard lengths, and the table in two sizes, all in-ground fixed as standard, although bolt-down versions can be supplied if preferred. Special curved bench units can be supplied on request. All products are manufactured in opepe hardwood and coated to retain a good colouration over a longer period than for untreated timber.
