

Mmt Boards Top 10

AUGUST 2018

Man Made Timber Boards - Our Top 10

Illustrated here are our 10 most popular Man-made Timber notice board packages, comprising board, header, lettering (based on 17 characters) and delivery to the majority of UK mainland postcodes, making the buying process simpler and easier. Each board is hand-built by our skilled craftsmen to a design which is the result of nearly 30 years experience in working with this unique material, and is assembled to order. Modular construction techniques ensure robust construction and mean that should any parts become damaged as a result of accident or vandalism, replacement of the affected component is usually a straightforward task. It also means that in multi-bay boards each bay offers a fully independent, separately accessed space. All glazed boards are ventilated to minimise condensation.

In practice, our "Top 10" does not mean that your choices are limited. Options including wall, post or railing-mounting, headers and alternative display surfaces mean that most will be able to find a board to fit their needs, but for those that can't, we offer our "Full Range" and also the possibility of bespoke boards.
