

Tudor Panel

Jacksons Fencing

Tudor is a unique double sided fence. Made using half rounded, evenly spaced pales on one side, and flat boards on the alternative side to create privacy, it provides two different design options. All the boards are planed to ensure a premium finish, with stainless steel fixings used throughout for a long life. Constructed with a frame-less design to ensure a simple look, this panel is a really distinctive option.

- All timber used throughout is superior quality Jakcure® treated softwood guaranteed for 25 years.
- All fixings are stainless steel.
- Designed for use with slotted Jakposts®.
- Different design on both sides of the panel.
- Part of our 'good-both-sides' range.
- Panels can be rotated so the pales can run either vertically or horizontally.
- Gravel boards are required where panels are in contact with the ground.

Specification

Panel Heights: 1.83m

Panel Width: 1.83m

Thickness: 47mm

Side 1: Round Pales 46 x 19mm

Side 2: Flat Pales 74 x 8mm

Panels can be cut to a desired width on site. Always use Jakcure® End Grain Treatment on any cut timber.

Gates

Gates are Jakcure® treated softwood, right and left hand hanging (when viewed from the outside) but are made to order. They are designed to match our Tudor Panel. Non-standard gates with custom width / heights are available as a special order and are also available as pairs (size restriction applies).

- Elegantly designed to match our Tudor Panel.
- Galvanised ring latch and adjustable hook and band hinges are included.
- All fixings and fittings are galvanised or stainless steel.
- Wall plates are available for fitting these gates to walls.

Standard Gate Heights: 1.78m

Standard Gate Widths: 1m
