Maintenance & Service

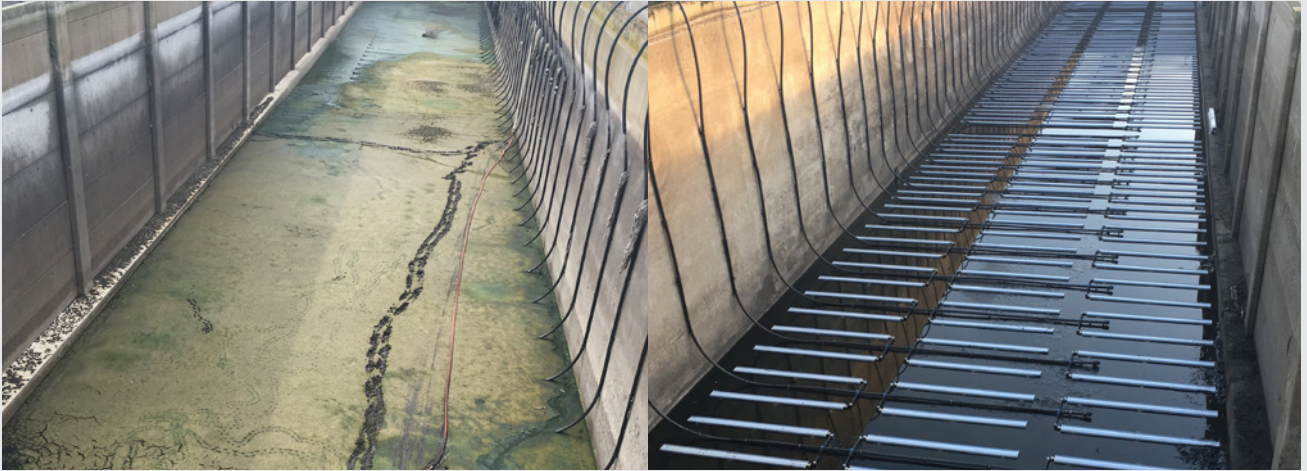

Asset life maintenance and servicing solutions

Asset Life Optimisation

THE KNOWLEDGE, SKILLS AND EXPERIENCE TO WORK WITHIN THE WASTEWATER TREATMENT PROCESS INDUSTRY PLACES ELIQUO HYDROK IN THE PERFECT POSITION TO HELP WATER COMPANIES OPTIMISE THE EFFICIENCY AND LIFE EXPECTANCY OF THEIR EXISTING PROCESS TREATMENT PLANTS. FOLLOWING THE PLANTS OM GUIDELINES FOR ALL OPERATIONAL PROCEDURES IS THE OBVIOUS FIRST STAGE TO MAINTAIN OPTIMAL PERFORMANCE, HOWEVER INEVITABLY TIME HAS AN EFFECT AND REMEDIAL ACTION IS REQUIRED TO ENSURE THE TREATMENT WORKS ARE OPERATING AT THEIR BEST.

Diffuser refurbishment and/or replacement

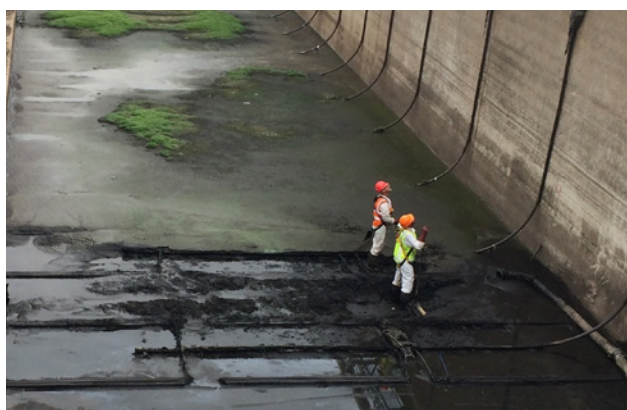

Planned cleaning helps to extend the life of PCMF material and aeration diffusers

KEY TO THE SOLUTION

ELIQUO HYDROK can provide complete managed solutions to various process upgrades, asset refurbishment, planned and reactive maintenance as well as asset optimisation. Acting either as principal contractor, or in a subcontractor capacity, this kind of work requires a knowledgeable cleaning of the asset sympathetic to the fitted technology, an understanding of the operational functionality and with care and due diligence for the whole project.

Well maintained assets have demonstrable payback through reduced energy usage, reduced reactive maintenance costs and offer greater consent compliance security.

ASSET REFURBISHMENT

Scope of the service:

Tank and lane cleaning

Full or partial refurbishment

Process equipment relocation

Acid dosing

Diffuser replacement programmes

Pipework and manifold replacement

PLANNED & REACTIVE MAINTENANCE

Benefits:

Helps to extend asset life

Prevent unplanned outages

Helps to ensure consent compliance

Fully managed PPM service available

Rapid availability of spare parts minimises downtime

Asset Life Optimisation through planned maintenance
and refurbishment, helping maintain consent
compliance.
