

WOOD
BloccX
LANDSCAPING

What is WoodblocX?

WoodBlocX is a unique, patented system of interlocking timber blocks that can be used to design and create almost any external structure.

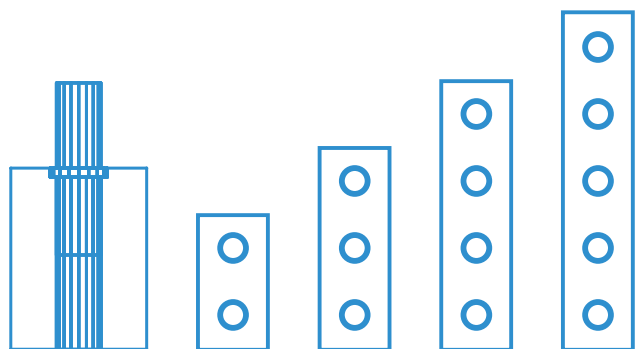

The individual BlocX are made from sustainably-sourced, FSC accredited Scots pine and are fitted together using recycled plastic dowels. We proudly harvest and manufacture all timber ourselves which allows us full quality control throughout the production process.

Architects and Landscape Architects can use WoodblocX to design almost any external structure.

Both large contractors and specialist landscape contractors will save time and effort thanks to the

simplicity and speed of construction of WoodblocX.

Owners or managers of offices, student accommodation, housing or public sector developments can choose WoodblocX to add a special touch to external space.

Why choose WoodblocX?

P

D

We offer CPD training sessions at your premises explaining the principles of the WoodBlocX system and showcasing the scope of what can be built. Contact us for details.

Design flexibility

- ≈ Complete freedom of design
- ≈ Create one-off structures to complement the setting
- ≈ Bespoke street furniture can be created with a choice of any finish
- ≈ Custom cladding available on request - ranging from hardwood to powder coated steel
- ≈ BIM ready files can be supplied
- ≈ NBS specs also available

Ease of installation

- ≈ Easy to build - modular system fits together with interlocking dowels
- ≈ Fast to build - no power tools or specialist skills
- ≈ Light and easy to handle
- ≈ No foundations needed

Durability

- ≈ Pressure treated timber
- ≈ WoodblocX construction method gives an inherently strong structure
- ≈ Will not distort, bend or collapse
- ≈ 15 year guarantee on any structure
- ≈ 20 year design life

Sustainability

- ≈ No waste - each order comes with the number of components required
- ≈ Locally-sourced FSC certified timber
- ≈ Made in the UK
- ≈ TRADA member

WHAT
CAN BE
BUILT WITH
WOODBLOCX?

Build attractive, strong raised planting beds, planters, ponds, retaining walls, street furniture and more.

THREE-STAGE PRICING STRUCTURE

SUPPLY ONLY

- ≈ Use our online calculator to check the cost of raised beds, ponds and walls
- ≈ Free design and CAD production for any size of project
- ≈ Quotes turned around within 48 hours
- ≈ We provide drawings, full instructions and a list of components for every kit
- ≈ We are on hand via phone or online to support the build

SUPPLY AND PROJECT MANAGE

- ≈ As above but with the support of one of our five project managers
- ≈ We will supervise labourers
- ≈ We oversee the construction process
- ≈ We even pitch in to get the structure built

FULL INSTALLATION

- ≈ We manage the whole project
- ≈ We organise and schedule delivery
- ≈ We supply our own team and fully build the structures
- ≈ We won't leave until you are 100% satisfied with the construction and finishing
- ≈ CHAS registered contractor
- ≈ BALI member

How soon can I get it?

We can visualise designs within 48 hours

We hold stock of WoodBlocX all year round

Delivery on a 48 hour lead time

Bespoke finishes generally available with three weeks

Our project management team are on hand 365 days a year to answer your questions
