

STONESPAR™. STRONG, UNIQUE

THINK BEYOND 'THE NORMAL'

# PRE BLENDED TONES

## SHOULDERS THE BURDEN OF MODERN LANDSCAPES

Marshall's stonespar is designed to be used as a modern mixed use landscape where vehicular overrun is inevitable. Capable of carrying a Class 4 loading which is a walking area or market place occasionally used by delivery or emergency vehicles this stunning

pre-blended stone creates a unique British standard compliant paving alternative. High strength allows the plank format to carry vehicles and being sandstone it has a high quality non slip surface

# 5 STONES UNIQUE TO MARSHALLS

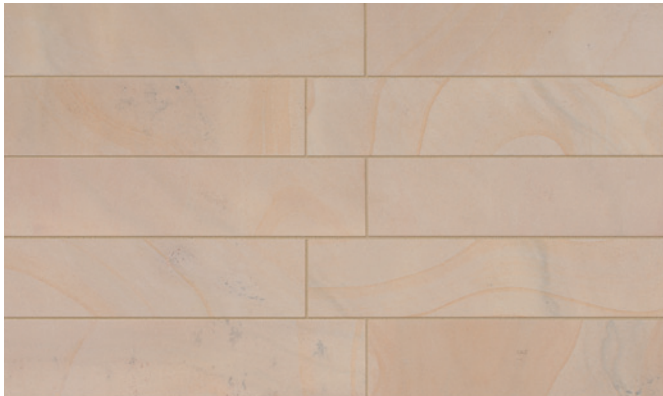

Stonespar is a new concept for stone paving using five amazing new sandstones in an innovating and exciting design led vision for paving. This new combination of colours, size and designs marks a new era for Natural Stone landscapes.

**Dimensions:**

600 x 130 x 65mm

**Weight:**

Approx 13kg reducing manual handling issues

# 4 PRE-DESIGNED BLENDS

These attractive pre-designed blends allow quick decision making with no compromise on aesthetic appeal. They simplify what appears to be difficult, eliminate risk and offer a quick designed solution.

- Pre-mixed through each layer in each crate to give exact proportions and consistency of mix when laid
- Space on site is minimised as no site mixing is required
- Bespoke blends can also be created and supplied pre-mixed for projects

Vasanta Blend

Grishma Blend

Hemant Blend

Sharad Blend

# INFINITE POSSIBILITIES

## THINK BEYOND 'THE NORMAL'

Stonespar allows more creative laying patterns to be considered. Blends can also be subtly altered to highlight usage of specific areas or banding could be introduced in either harmonious or contrasting colours. Designs could be bolder using colours to contrast against each other in a striking herringbone pattern or perhaps keep it

simple by using one of our a pre-designed blends in a more traditional stretcher bond. The choice of pattern and the blend of colours is completely yours as stonespar allows you to think beyond 'the normal'

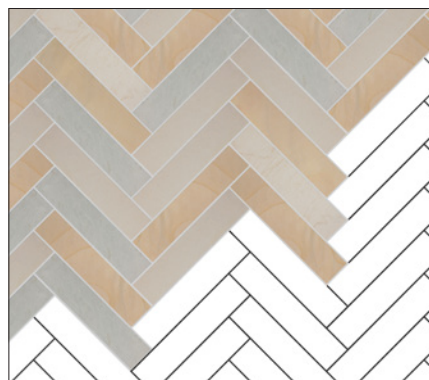

Third Bond

Elongated Stitch Bond

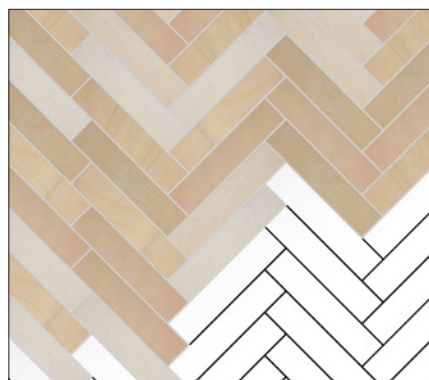

Herringbone

Double Herringbone

Triple Herringbone

Erratic Herringbone

# COORDINATED ACCESSORIES

## PRACTICAL NEW PAVING SHAPE

The linear aesthetic of Stonespar paving units means linear drainage with the same structural form is a perfect companion. Practical too with Tree Grilles which can fit exactly into Stonespar bond patterns, reducing cutting and making installation easier and quicker

## COMPLEMENTS STREET FURNITURE

Marshalls new "Simply Stone" range of cubes and benches are manufactured in the same stones as the stonespar paving so that the street furniture can help create a more coordinated landscape. Marshalls simply stone range has an elongated wrap around textured strip as a feature which reflects the linear nature of stonespar to further harmonise the paving and street furniture
