

HorseMax Paddock

%	Cultivar	Species
25%	SOLOMON	Intermediate perennial ryegrass
15%	BOYNE	Intermediate perennial ryegrass
35%	GLENVEAGH	Late perennial ryegrass
15%	MAXIMA	Strong creeping red fescue
10%	PROMESSE	Timothy

- Very good sward density
- Suitable for a hay crop if desired
- Hard wearing sward
- No tetraploids as high sugar grass can lead to laminitis
- Any extremely versatile equine mixture

10kg pack size

14-16kg/acre (35-40kg/ha)
