

CASE STUDY

Sopwell House Hotel

Project Specification

Ann-Marie Powell Gardens has now completed the implementation of the Cottonmill Spa Garden at the prestigious Sopwell House Hotel. Cottonmill is undoubtedly one of 2019's most highly anticipated Spa openings, bringing together innovative experiences, contemporary design, diverse relaxation spaces and the state of art new Spa garden. The garden has been built to millimetre precision by Landform Consultants. Newly planted statement trees and mature hedging were supplied by Hortus Loci and professionally planted by Landform using the Platipus Rootball Fixing System with Plati-Mat. Ann-Marie Powell says, "We hope that this new commercial garden at Sopwell will give as much pleasure as our Mews gardens completed in 2015, where the Platipus systems also proved to be very successful".

Tree Anchoring System: RF2P
