- **Standard Size** 1m<sup>2</sup>  
500mm wide (19.6")  
2000mm long (78.7")
- Soil Thickness** 18mm to 20mm (0.71" to 0.78")
- Roll Weight** 18kg – saturated weight may be up to 25kg
- Grass height on despatch** Approx. 100mm (4"). The product is mown before despatch to minimise damage to plants. It will not be in flower when it is delivered.

*All measurements are approximate and taken when harvested.*

- **Growth** Harrowden Turf Cottage Garden Meadowmat is a blend of 2 slow growing grasses and 30 native wildflowers many of which could be found in an old fashioned English garden. Most of the species are perennial which means they will flower every year if the conditions are suitable. The specially selected grasses ensure coverage all year round. Harrowden Turf Cottage Garden Meadowmat will contain mature plants, root fibre and enough soil to maintain the plants during establishment.
- **Typical Seed Mixture\*** 5% Native grasses  
95% Native Wildflowers
- **Soil Classification** Grown on a sandy loam and compost based substrate

**A glorious blend of native and non-native plants and grasses to attract and support pollinating insects whilst bringing a beautiful splash of colour to your garden.**

GROWING BETTER TOGETHER

# Features:

## Cottage Garden Meadowmat

### ■ Features

A mixture of mature plants that allows you to establish dense planting very quickly - more reliable than seeding and less time-consuming than plug planting.

Biodiverse and pollinator-friendly providing a valuable source of nectar and food for many species of insects and birds.

Contains perennial, annual and bi-annual species to ensure a varied display each year.

Environmentally friendly requiring no fertilisers or pesticides.

A mixture of grasses and wildflowers for year-round interest.

Low maintenance – does not require regular mowing.

Prefers a neutral pH but can tolerate acidic or alkaline soils - for best results this product requires installation on a low nutrient soil.

### Ideal for:

**Biodiverse landscaping schemes**

**Low maintenance areas**

**Commercial landscaping**

**Urban Areas and parks**

**Domestic gardens**

Free draining sandy loam  
with 40% compost

*\*As sown. The actual percentage of each species contained may vary due to environmental factors. Harrowden Turf makes every effort to ensure wildflower products are free from weeds and pests, however due to the natural way in which these products are grown we cannot guarantee they are 100% pest free on delivery. It is unlikely that you will see every species that is listed. The variation of species present has been developed to suit a wide variety of soils and environmental conditions. This will result in a product that will adapt to individual settings which may mean some species are more successful than others. Contains annual bi-annual and perennial species. If installed after March many species may not flower during the first year.*
