

Meadowmat

Birds & Bees FLL Seed Mix

- **Product Order Code** SEED-MEAD-BBFL
- **Available from** Harrowden Turf Ltd, Colpmans Farm, Islip, Northamptonshire, NN14 3LT
- **Standard Size** Available in various quantities.
Sowing Rate 5g/m².
- **Growth**
Harrowden Turf Birds & Bees FLL Meadowmat Seed Mix is a blend 41 native wildflowers specially selected to be pollinator friendly. Many of the species are perennial which means they will flower every year if the conditions are suitable. Having no grass species in the mix results in a more colourful mix that is also suitable for green roof installations.
- **Typical Seed Mixture***
100% Native Wildflowers: Agrimony, Autumn Hawkbit, Birdsfoot Trefoil, Bladder Campion, Chicory, Clustered Bellflower, Columbine, Common Daisy, Common Mallow, Common Sorrel, Common Toadflax, Cornflower, Fennel, Field Poppy, Fox And Cubs, Foxglove, Grandmothers Garden, Greater Knapweed, Harebell, Maiden Pink, Meadow Buttercup, Meadow Cranes-Bill, Musk Mallow, Purple Loosestrife, Ragged Robin, Red Campion, Red Clover, Sheeps Bit Scabious, Small Scabious, Tansy, Teasel, Viper's Bugloss, White Campion, White Clover, Wild Basil, Wild Carrot, Wild Clary, Wild Marjoram, Wild Pansy, Wild Thyme, Yarrow
- **Uses**
Biodiverse landscaping schemes.
Low maintenance areas.
Commercial landscaping.
Urban areas and parks.
Domestic gardens.
Areas requiring maximum colour and interest.
Green Roofs.
- **Flowering Time**
Flowers from January to December (dependant on local weather conditions) peak flowering is from June to October.

With no grasses, this 100% wildflower seed mix is ideal for use on green roofs or areas where a florally focussed display of colour is required.

Features

- 100% wildflower mix
- Biodiverse and pollinator-friendly providing a valuable source of nectar and food for many species of insects and birds
- Contains perennial, annual and bi-annual species to ensure a varied display each year.
- Environmentally friendly requiring no fertilisers or pesticides.
- Low maintenance – does not require regular mowing.
- Prefers a neutral pH but can tolerate acidic or alkaline soils - for best results this product requires installation on a low nutrient soil or substrate mix.

*When grown the actual percentage of each species contained may vary due to environmental factors. Harrowden Turf makes every effort to ensure wildflower products are free from weeds seeds, however due to the natural way in which these seeds are collected we cannot guarantee they are 100% weed free on delivery. It is unlikely that you will see every species that is listed. The variation of species present has been developed to suit a wide variety of soils and environmental conditions. This will result in a wildflower area that will adapt to individual settings which may mean some species are more successful than others. Contains annual bi-annual and perennial species.

** The RHS Plants for Pollinators mark is only given to plants that support pollinating insects. Find out more at rhs.org.uk/plantsforpollinators

Meadowmat

Woodland Shade Seed Mix

- **Product Order Code** SEED-MEAD-WOOD
- **Available from** Harrowden Turf Ltd, Colpmans Farm, Islip, Northamptonshire, NN14 3LT
- **Standard Size** Available in various quantities.
Sowing Rate 5g/m².
- **Growth**
Harrowden Turf Woodland Shade Meadowmat Seed Mix is a blend of 3 slow growing grasses and 35 native wildflowers many of which can be found growing in woodland and hedgerows. All but one of the species are perennial which means they will flower every year if the conditions are suitable. The specially selected grasses ensure coverage all year round.
- **Typical Seed Mixture***
30% Native Grasses: Crested Dogstail, Sheep's Fescue, Yellow Oatgrass
70% Native Wildflowers: Autumn Hawkbit, Betony, Birdsfoot Trefoil, Catsear, Common Knapweed, Common Sorrel, Common Toadflax, Common Vetch, Cowslip, Daisy, Dames Violet, Field Scabious, Kidney Vetch, Ladys Bedstraw, Meadow Buttercup, Meadow Cranesbill, Meadow Vetchling, Meadowsweet, Musk Mallow, Pepper Saxifrage, Primrose, Ragged Robin, Red Campion, Ribwort Plantian, Rough Hawkbit, Salad Burnet, Sanfoin, Selfheal, Tufted Vetch, White Campion, Wild Carrot, Wild Marjoram, Wild Mignonette, Wood Sage, Yellow Rattle
- **Uses**
Biodiverse landscaping schemes.
Low maintenance areas.
Commercial landscaping.
Urban areas and parks.
Domestic gardens.
- **Flowering Time** Flowers from March to November (dependant on local weather conditions) peak flowering is from June to September.

A shade tolerant seed mix designed to give colour and variety to those harder to manage shady areas.

Features

Biodiverse and pollinator-friendly providing a valuable source of nectar and food for many species of insects and birds.

Contains mainly perennial species to ensure a varied display each year.

Environmentally friendly requiring no fertilisers or pesticides.

A mixture of grasses and wildflowers for year round interest.

Low maintenance – does not require regular mowing

Prefers a neutral pH but can tolerate acidic or alkaline soils - for best results this product requires installation on a low nutrient soil.

*When grown the actual percentage of each species contained may vary due to environmental factors. Harrowden Turf makes every effort to ensure wildflower products are free from weeds seeds, however due to the natural way in which these seeds are collected we cannot guarantee they are 100% weed free on delivery. It is unlikely that you will see every species that is listed. The variation of species present has been developed to suit a wide variety of soils and environmental conditions. This will result in a wildflower area that will adapt to individual settings which may mean some species are more successful than others. Contains annual bi-annual and perennial species.
