## 20mm Drainage Board

- **Product Order Code** ENV-DRAINAGE BOARD
- **Available from** Harrowden Turf Ltd, Colpmans Farm, Islip, Northamptonshire, NN14 3LT
- **Standard Size** 0.97m x 50m Rolls (48.5m<sup>2</sup>)  
Thickness: 21mm  
Approximate weight: 1.2kg/m<sup>2</sup>  
*This product is supplied by the square metre cut to size. All measurements are approximate.*
- **Performance** Water storage capacity: 4 l/m<sup>2</sup>  
Water Flow: 24 l/m<sup>2</sup>/s
- **Details** A 20mm Black HDPE (high-density polyethylene) punched cusped drainage board with a geotextile filter fleece bonded to a single side (top). The 20mm cusped provides water storage of up to 4 litres per square metre with 10mm diameter punched perforations, ensuring an overflow performance of 24 l/m<sup>2</sup>/s. The attached filter fleece stops small particles from washing into drains without hindering water permeability.
- **Uses** Provides an irrigation and drainage system for greenroofs.

**A tough cusped drainage board with integral filter fleece, ideal for intensive and semi-intensive greenroofs**

### Features

- Optimised for maximum strength and performance
- UV stabilised
- High crush and puncture resistance
- High flow rate
- Easy to cut

**Important** - Although this product has been UV stabilised it is advisable to store it out of direct sunlight until it is used.
