

Meadowmat Heritage Seed Mix

- **Product Order Code** SEED-MEAD-HER
- **Available from** Harrowden Turf Ltd, Colpmans Farm, Islip, Northamptonshire, NN14 3LT
- **Standard Size** Available in various quantities. Sowing Rate 5g/m².
- **Growth**

Harrowden Turf Heritage Seed Mix is a blend of 1 slow growing grass and 21 native wildflowers that have been selected for their ability to grow in shallow poor nutrient soils. Most of the species are perennial which means they will flower every year if the conditions are suitable. The specially selected grass ensures and all year round coverage. Harrowden Turf Heritage Seed Mix was originally designed for green roofing but is just as happy when grown on the ground.

- **Typical Seed Mixture***

10% native grasses: Slender creeping red fescue

90% Native Wildflowers: Birdsfoot trefoil, Bladder campion, Clustered Bellflower, Common poppy, Cornflower, Daisy, Fox and cubs, Lady's bedstraw, Maiden pink, Meadow saxifrage, Ragged robin, Sea campion, Selfheal, Sheep's bit, Soapwort, Thrift, Viper's bugloss, Water avens, Wild thyme, Yarrow, Yellow Rattle.

- **Uses**

Biodiverse landscaping schemes.
Biodiverse living roofs.
Low maintenance areas.
Commercial landscaping.
Urban areas and parks.
Domestic gardens.

- **Flowering Time**

Flowers from January to December (dependant on local weather conditions) peak flowering is from June to September.

*When grown the actual percentage of each species contained may vary due to environmental factors. Harrowden Turf makes every effort to ensure wildflower products are free from weeds seeds, however due to the natural way in which these seeds are collected we cannot guarantee they are 100% weed free on delivery. It is unlikely that you will see every species that is listed. The variation of species present has been developed to suit a wide variety of soils and environmental conditions. This will result in a wildflower area that will adapt to individual settings which may mean some species are more successful than others. Contains annual bi-annual and perennial species.

**The RHS Plants for Pollinators mark is only given to plants that support pollinating insects. Find out more at rhs.org.uk/plantsforpollinators

Heritage Meadowmat Seed Mix was originally developed for green roof applications, however it is just as happy on the ground!

Features

Biodiverse and pollinator-friendly providing a valuable source of nectar and food for many species of insects and birds.

Contains mainly perennial species to ensure a varied display each year.

Environmentally friendly requiring no fertilisers or pesticides.

A mixture of grass and wildflowers for year round interest.

Low maintenance – does not require regular mowing.

Prefers a neutral pH but can tolerate acidic or alkaline soils - for best results this product requires installation on a low nutrient soil or specialist roofing substrate.
