This product is sold per bag. Actual weight will depend on moisture content at the time of bagging.

- **Details**

A British Standard (BS3882:2015) tested Sandy Loam screened to 20mm, suitable for all general landscaping purposes. This soil is a blend of rich dark organic soil and sandy loam with a fine to medium granular structure, making an easy to work with friable soil ideally suited for planting, turfing and seeding. The high organic matter provides a sufficient reserve of all major plant nutrients with no contaminants that are considered toxic to plants, human life or the environment. Slightly alkaline, this soil suits plants with a wide pH tolerance.

- **Uses**
 - General landscaping.
 - Turfing and seeding.
 - Raised beds and borders.
 - Tree and shrub planting.
 - Vegetable and grow your own beds.

- **Composition and Colour**

Our own blend nutrient-rich, organic and screened loam. Ideal for improving existing soils, general planting and turfing.
