

TopClip – FLOORING TRIMS

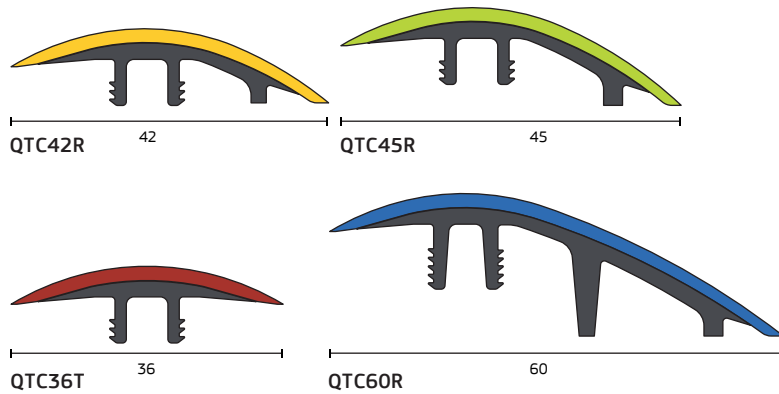

TOPS

The new 'TopClip' from Quantum Flooring Solutions offers a floor trim system suitable for installation in both contract and domestic locations.

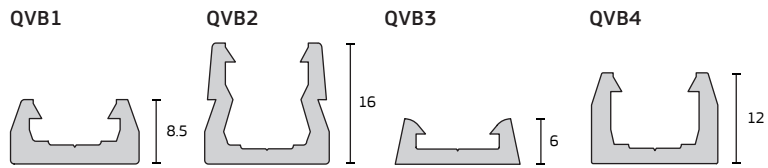

The range includes a number of bases and top trim profiles to create a neat, safe and durable junction between adjacent floor finishes. The different sizes of bases and tops allow for almost all floorcovering thicknesses to be accommodated, the tops are available in a range of 24 colours to compliment any design scheme.

- » All tops fit all bases – versatile choice of applications.
- » Co-extruded tops – slip resistant surface and high impact clip.
- » Easy to install – time saving.
- » Product combinations – all junction gauges accommodated (see over).
- » uPVC bases – can be curved on-site.
- » Aluminium Base QAB2 – punched gripper option for carpets.
- » Easy to clean – low maintenance.
- » 24 colours with anti-slip tread material surface

Installation

TopClip Transition profiles (QTC36T, QTC42R, QTC45R) with uPVC bases can be curved on-site down to a radius of approximately 750 mm depending on site conditions. Screw the pre-drilled bases to the floor between the two floorcoverings. Position the tops in place and tap into place using a rubber mallet.
