

## The AUTOPA Camden Polyurethane Bollard

The AUTOPA Camden Polyurethane Bollard has a modern design and is ideal for use as part of traffic calming measures within urban areas. Corrosion and shatter proof, these bollards are cast in an engineering grade, heavy duty polymer around an integral steel core.

Available ragged and black only, polyurethane bollards are a highly durable alternative for traditional cast iron bollards.

## Options

Order Code	Description	Weight
138 124 070	Ragged	44.0kg

## Product details

1075mm above ground  
300mm below ground  
245mm overall width

## Installation & use

Ragged bollards require a hole of at least 300mm deep for casting into concrete. AUTOPA recommends that bollards are placed no further than 1,200mm apart to ensure that no vehicle may pass between them. This product is guaranteed for 12 months (*if installed and used correctly*).
