

The AUTOPA Allegrini Verge Marker

Manufactured from hollow UV resistant plastic, the Allegrini Verge Marker is a highly durable traffic bollard. Designed with safety in mind, this verge marker will not splinter in the event of an impact and complies with BS EN 1276-7.

Twin reflective plates maximise its visibility, even in poor weather conditions or at night. These verge markers are supplied coated in black and white, and with a below surface base extension for ground fixing.

Options

Order Code	Description	Weight
138 107 200	Allegrini Verge Marker	1.8kg
