

## Domed Top Bollard (Removable)

### The AUTOPA Domed Top Bollard

The AUTOPA Domed Top Bollard combines mild steel tube with a high grade, impact resistant, malleable cast iron cap. The Domed Top Bollard is an elegantly simple bollard, ideal for providing protection against unauthorised parking or access. The Domed Top Bollard is ideal for use around pedestrian precincts, pavements, play and parking areas, as part of traffic calming measures, pedestrianisation schemes and as a deterrent to ram-raiders.

The Domed Top Bollard is available in galvanised and galvanised & coated finishes. It is also available Ragged for casting in to concrete, Flanged for bolting down or in Removable versions.

The AUTOPA Domed Top Bollard is shown in 76mm galvanised tube.

### Product Range

Order Code	Description	Weight

### Product details

1,000mm Tall.  
267mm below ground depth.  
Galvanised steel finish.

### Installation & use

Removable bollards require an excavated hole of at least 300mm square and 400mm deep for the socket. AUTOPA recommends that bollards are placed no further than 1,200mm apart to ensure that no vehicle may pass between them. This product is guaranteed for 12 months (if installed and used correctly).
