

Hillmorton Cycle Stand

Galvanised, Galvanised & Colour or Stainless

The VELOPA Hillmorton Cycle Stand is based on the popular Sheffield Cycle Stand. A familiar sight throughout the UK, the design allows the frame and wheel of the bicycle to be secured by the cyclists own lock. Each stand is suitable for securing two bicycles at once. The Hillmorton Cycle Stand is complete with a 150mm signage plate, with the Cycle Parking 'P' and cycle symbol signs incorporated into the design as standard on one side only. The lower edge of the signage plate sits 350mm above the ground.

Manufactured from galvanised mild steel; this practical and durable stand is ideal for busy public areas. Supplied galvanised and ragged as standard; flanged, colour coated and stainless steel versions are also available. RAL/BS numbers must be specified at time of order. Reflective tape can be added to maximise visibility.
