

Our Bespoke Design Service

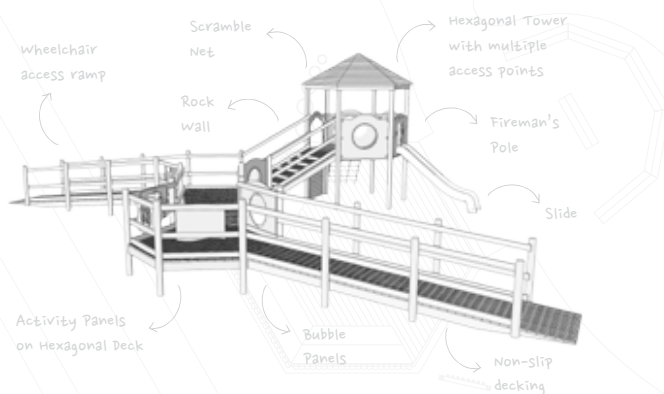

6

DESIGN

At Schoolscapes we offer a completely free design service which enables you to get exactly what you would like from your playground.

Let us know your exact requirements and if we don't already have a product that fits we will work with you to create something perfect for your play space. This can be a simple alteration like raising the height of a Sandpit Table to allow for wheelchair access or a more complex project such as a completely bespoke play space to fit around existing trees or landforms.

We are happy to work with you to produce something to fulfil all of your unique requirements to get your dream playground.

Let us help you to bring your ideas to life...

The Inclusive Hexagonal Tower was designed especially for a High School in Worcestershire, incorporating wheelchair access for inclusive play.
