Cast aluminium, for 90 and 76mm Round Poles.

A   B   C

A: Ball Finial - Top Fixing (90mm Monopole only)
B: Ball Finial - External Fitting (76mm Poles only)
C: Pagoda Finial - External Fitting (76mm and 90mm poles)

Popular Configurations:
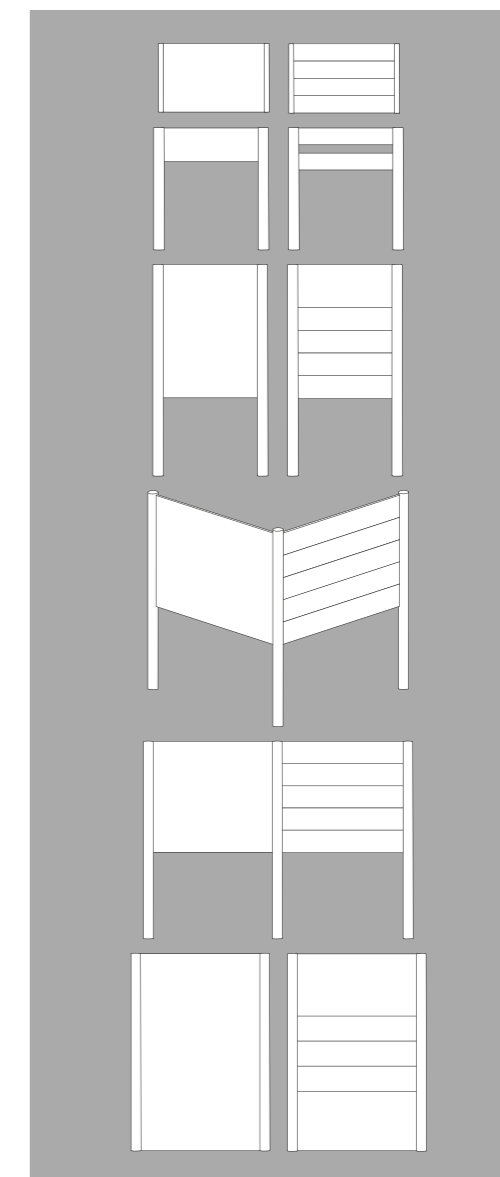

Typical Post & Panel Sign Assembly:

Most of the modular sign systems simply slide together prior to installation. The design of the sign systems allows for the ease of assembly with no additional specialist tool required.

Exposed mounting locations will require additional post strengthening which can be added to reinforce the sign assembly. These are also fitted within the internal cavity of the post design without the need for additional tools or modifications etc.

INFOCURVE

Infocurve is an elegant, curved-faced, modular sign system that creates a broad range of sign solutions, for internal or external use.

KEY FEATURES:
- A statement of excellence
- Easy install as no ground cage required

Varicase Formats:
- Single, Double, Triple or Double-Sided door
- Wall, post or rail mounted

Frame Finishes:
- Satin Silver
- Textured silver
- Antique bronze
- Antique pewter
- Standard powder coated colours

Insert Options:
- Premium Felt
- Brushed loop nylon
- Tricord
- Cork
- Magnetic whiteboard
- Dry-wipe whiteboard
- Coloured magnetic whiteboard
- Felt groove letterboard

Specification Detail:
- Frame: 6060T6 grade aluminium
- Glazing: 4mm hi-impact acrylic
- Core: Magnetic panel or 8mm pinboard
- Depth: 50mm overall
- Internal Depth: 25mm pinboard insert to glazing
- Fire Rating: Exterior surfaces to BS-476 Class 1
- Locks: Integrated proprietary locks with 2 keys
- Wall Mounted: Case not pre-drilled as standard, 40mm extra Pinboard display behind door
- Illumination: Not available
- Back Panel: Coloured magnetic panels have powder coated zintec, all other inserts have mill finish(wall) and PC finish (post) aluminium
- Posts Supplied: 80mm square, 3000mm aluminium posts, powder coated black as standard, alternative colours available, posts are side mounted as standard, 3500mm optional

Optional Extras:
- Groove letterboard
- Thumb locks instead of key locks
- Steel self-supporting stays - if you specify a top hinged door
- Different colour posts
- Steel surface mounting base plates
- Coloured aluminium back panel
- ARC, ABL, CRD external header panel
- Flat external header and/or footer panel
- Internal header plate - 75(h)mm - 150(h)mm, add extra 75(h)mm
- Vinyl text on glazing or header
- Printed logo or digital print on glazing or header

General Information:

For technical specifications please see the below pages.

PINBOARDS

We offer a range of pinboards to suit internal locations for a host of applications.

SCHOOL BOARDS

These Premium aluminium framed openboards are perfect for use in any outdoor settings, schools and nurseries.

SCHOOL BOARD OPTIONS:

- Our chalkboards are made from a high pressure laminate which is far superior to painted wood (from which many chalkboards are made). Unlike painted boards, our boards won't chip or degrade and won't require annual repainting.
- Our premium whiteboards are virtually unbreakable, with long-lasting quality.

POPULAR USES:

- Health and safety
- Classroom boards
- Status boards
- Playtime boards

IDEAL LOCATIONS:

- Outdoor settings
- Nurseries
- Schools
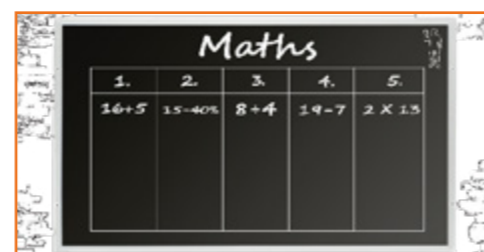

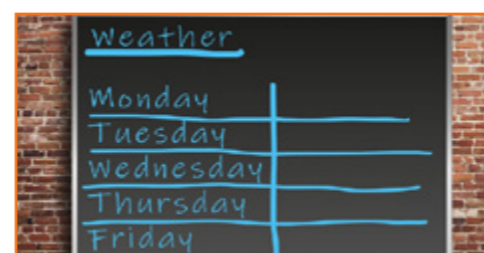

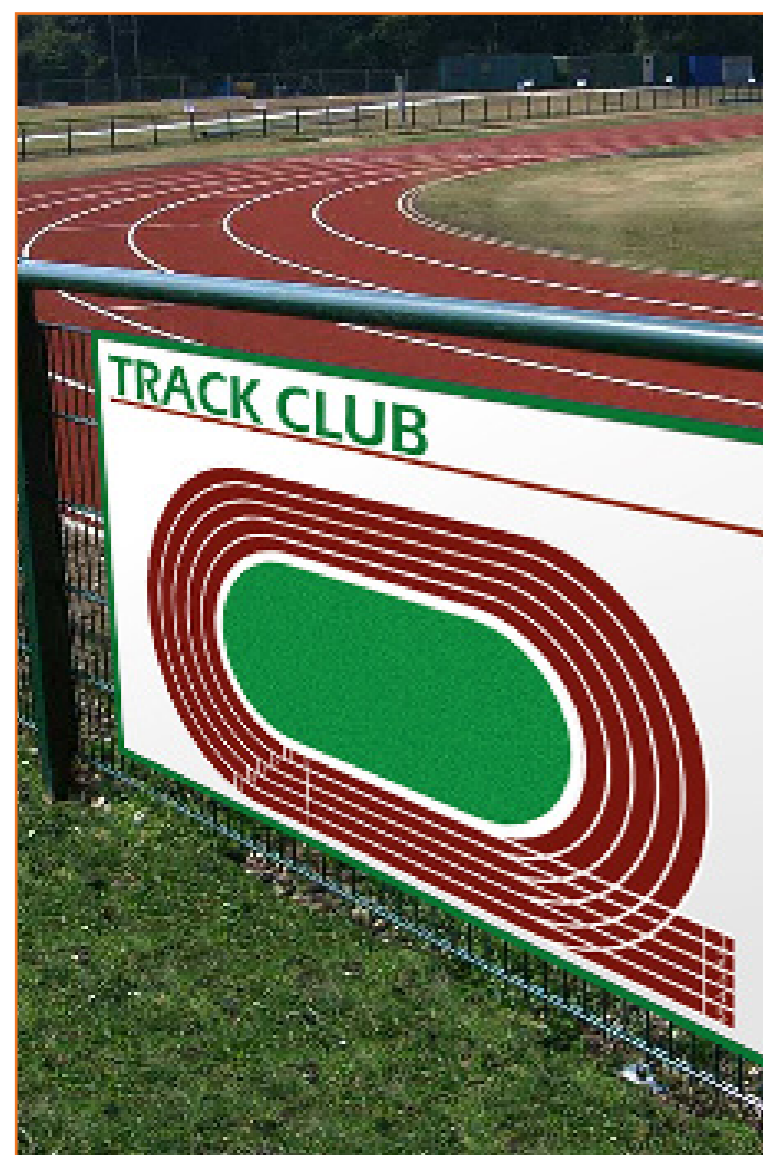

Display Area:

300mm x 210mm (A4)
420mm x 300mm (A3)
600mm x 450mm
900mm x 600mm
1200mm x 900mm
1200mm x 1200mm
1500mm x 1200mm
1800mm x 1200mm
2400mm x 1200mm

Key Features:

- Easy to install
- Come complete with wall fixings
- Premium quality with 16mm depth
- Virtually unbreakable magnetic surface
- All components 100% weatherproof
- Corner cap free design
- Designed for magnets and Dry-wipe pens
- Suitable for chalk and chalk pens (non-permanent)
- Includes pen tray

Frame Finishes:

- Textured silver
- Satin silver
- Standard powder coated colours

Whiteboard Formats:

- Flat Framed
- Custom Printed Framed
- Hidden Framed
- Solid Oak Framed

Insert Options:

- Magnetic dry-wipe whiteboard with high gloss finish
- Chalkboard laminate

Optional Extras:

- Full surface print to your custom design
- Standard sizes and custom sizes available
- Extra for a Powder Coated frame
- Any writing or cleaning substances or materials other than those recommended may invalidate the 5 year surface guarantee. Surface guarantee does not cover any damage or scratching of the board surface caused by misuse or vandalism.
- Vinyl text on whiteboard surface
- Printed logo or digital print
- Printed vinyl graphic

- 2 X locks and 2 x keys for Scroll, Varicase, Lynester and Avenue

Other:
- Anodising erasers for removing scuff marks on satin silver finishes

Approved Accessories & Cleaning Solutions:

BOARD CLEANING GUIDE

Our dry-wipe whiteboards perform to a very high standard, provided they are maintained correctly and used in conjunction with the correct pens.

To assist you in getting the best from your dry-wipe whiteboard and to ensure you maintain your 1 year product guarantee, please follow these guidelines:

Whiteboard Pens:

We put 12 leading dry-wipe whiteboard pen suppliers through extensive testing to check our surfaces perform to the highest standard. All pens tested met our minimum standard, for dry-wiping and cleaning off with a slightly damp cloth.

For best performance we recommend Pentel Maxiflo markers and Whitebox WBSL pens. These pens are available to purchase from us and are available through most stationery suppliers.

We ask that you use one of the following pens, in order to maintain your product guarantee.

- Pentel Maxiflo Premium Dry-wipe Markers
- Whitebox Economy WBSL Dry-wipe Markers
- Uni Inkview Whiteboard Markers
- Sharpie Low Odour Whiteboard Markers
- Artline 525tt Whiteboard Markers
- Acco Nobo Glide Dry-wipe Erase Markers
- Staedtler Lumocolor Whiteboard Markers
- Expo Dry Erase Markers
- Berol By Papermate Dry-wipe Markers
- Show-Me Teacher Whiteboard Markers
- 5 Star Dry-wipe Marker
- Edding 361 Board Marker

Cleaning Tips:

We recommend that any ink is cleaned with a soft cloth (e.g. yellow duster - included with each whiteboard we supply) and not a board eraser. Board erasers often hold the ink on the surface of the eraser which causes smudging. Smudged ink can then be significantly harder to remove. Please do not use any abrasive material to clean your board. Even something as innocent as a paper towel can damage the dry-wipe surface, causing it to become difficult to clean.

If ink does not dry-wipe with a soft cloth, we recommend making your cloth slightly damp. This should be sufficient to remove ink that is even several weeks old. If you prefer to have a cleaning spray near your board for convenience you can purchase an approved cleaning spray. 5-Star Whiteboard Cleaner- 250ml pump spray bottle is recommended.

GUARANTEES

5 Year Guarantee Terms & Conditions

All our exterior glazed products are covered by a 5 year guarantee as standard. This covers defective parts and/or labour, with the exception of the pinboard core and fabric coverings*, and is based on normal operating conditions within the UK and Republic of Ireland.

Powder coated finishes are applied to the standards of the powder coating suppliers. Colour fastness and corrosion resistance is dependent on the location and atmospheric conditions. Therefore our guarantee is limited to corrosion resistance only in line with our powder coating suppliers specifications, with the following provisions:

- Products with powder coated finishes, that are installed within 1 mile of a coastal location**, must also have the extra coastal intermediate primer protection applied to the external finish.
- Products with satin silver, polished gold or polished silver finishes, that are installed within 1 mile of the coast, must also have the additional clear powder coating applied to the external finish.

The guarantee is offered on the basis that, any faulty product is returned to the factory to assess and/or remedy, with prior written agreement of the manufacturer. Photographic evidence may be required before the product is returned. The 5 year guarantee does not cover consequential losses or expenses. If the product has been modified or tampered with other than as expressed in the instructions, or notified and agreed by the manufacturer, the manufacturer reserves the right to void the guarantee.

In order to uphold your guarantee, please ensure the products are:

- Installed, as directed in the instructions we provide.
- Well maintained, using guidance information stated on the instructions.
- Cleaned regularly, using guidance information stated on the instructions.

Frequency of cleaning will depend on local conditions, but the minimum recommendation is twice a year. In most cases regular cleaning will also help your product last beyond the 5 year guarantee.

* Please note that coloured magnetic inserts offer much greater durability than fabric coloured pinboards, especially in their colour fastness.
** As well as highly industrial locations or any other locations with high levels of sulphur dioxide in the atmosphere.

DELIVERY OPTIONS

General Delivery Terms:

1. Standard UK Mainland delivery.
2. DataPack Signed Next Day delivery for small replacement parts, lamps & ballasts, accessories and letterboard characters (max 10 sets) - £9 net.
