

Recycled Plastic Seating

Mplas NEW!

- Recycled plastic is an ideal product from which street furniture can be manufactured. Created from waste plastic material, it is an excellent alternative to wood, metal and concrete. It can be tailored to suit the application and location of the finished product, allowing the furniture to seamlessly blend into the environment.
- The material is maintenance free as it is non-porous and, therefore, not subject to rot, algae or fungal growth. This makes it suitable for use in very wet or damp conditions. Furthermore, as Mplas is manufactured using an extrusion process, it is free from cracking and splintering and, therefore, improves safety in public areas.
- High strength and robust construction means all furniture is of high vandal resistance. The products also have no scrap value, reducing the opportunity for theft. Mplas has an easy-to-wipe surface, removing paint and marker pen easily without damaging the product, as it is resistant to most chemicals.
- As plastic is less susceptible to degradation over time, the furniture has an extended product lifetime with cost benefits over traditional solutions. The furniture will not leach any chemicals and can also be fully recycled at the end of its operational life.
- All products are supplied fully assembled and can be root fixed to either soft or hard surfaces; once bolted in the ground, they will be ready for use.

MPLAS SEAT

MPLAS BENCH

Product Description	Overall Length (mm)	Seat Height (mm)	Width (mm)	Total Height (mm)	Colour
Moulded Seat	1800	460	375	800	Brown
Moulded Backless Bench	1800	460	420	460	Brown

Recycled Plastic Picnic Table

Mplas NEW!

MPLAS PICNIC TABLE

MPLAS WHEELCHAIR ACCESS PICNIC TABLE

- Part of the same recycled plastic range, the Mplas picnic tables have the same properties as the seat and the bench, creating a coordinated outdoors seating range made of recycled plastic.
- The tables are fully weather resistant and will not rot or splinter. They do not absorb humidity, which means that they avoid fungus or mould growth in between the slats and can be easily wiped clean, making them ideal for use outdoors all year round.
- The range is also available with a wheelchair access option. This table has an ideal height for wheelchair users and can be placed in all areas, commercial and public.

Product Description	Height (mm)	Width (mm)	Seat Height (mm)	Seat Width (mm)	Overall Length (mm)	Overall Width (mm)	Colour
Picnic Table	780	650	460	240	1550	1420	Brown
Wheelchair Access	780	650	460	240	1550	1480	Brown
